

**Average distance to optimum (%) for 100 items (random Instances A) - T0**

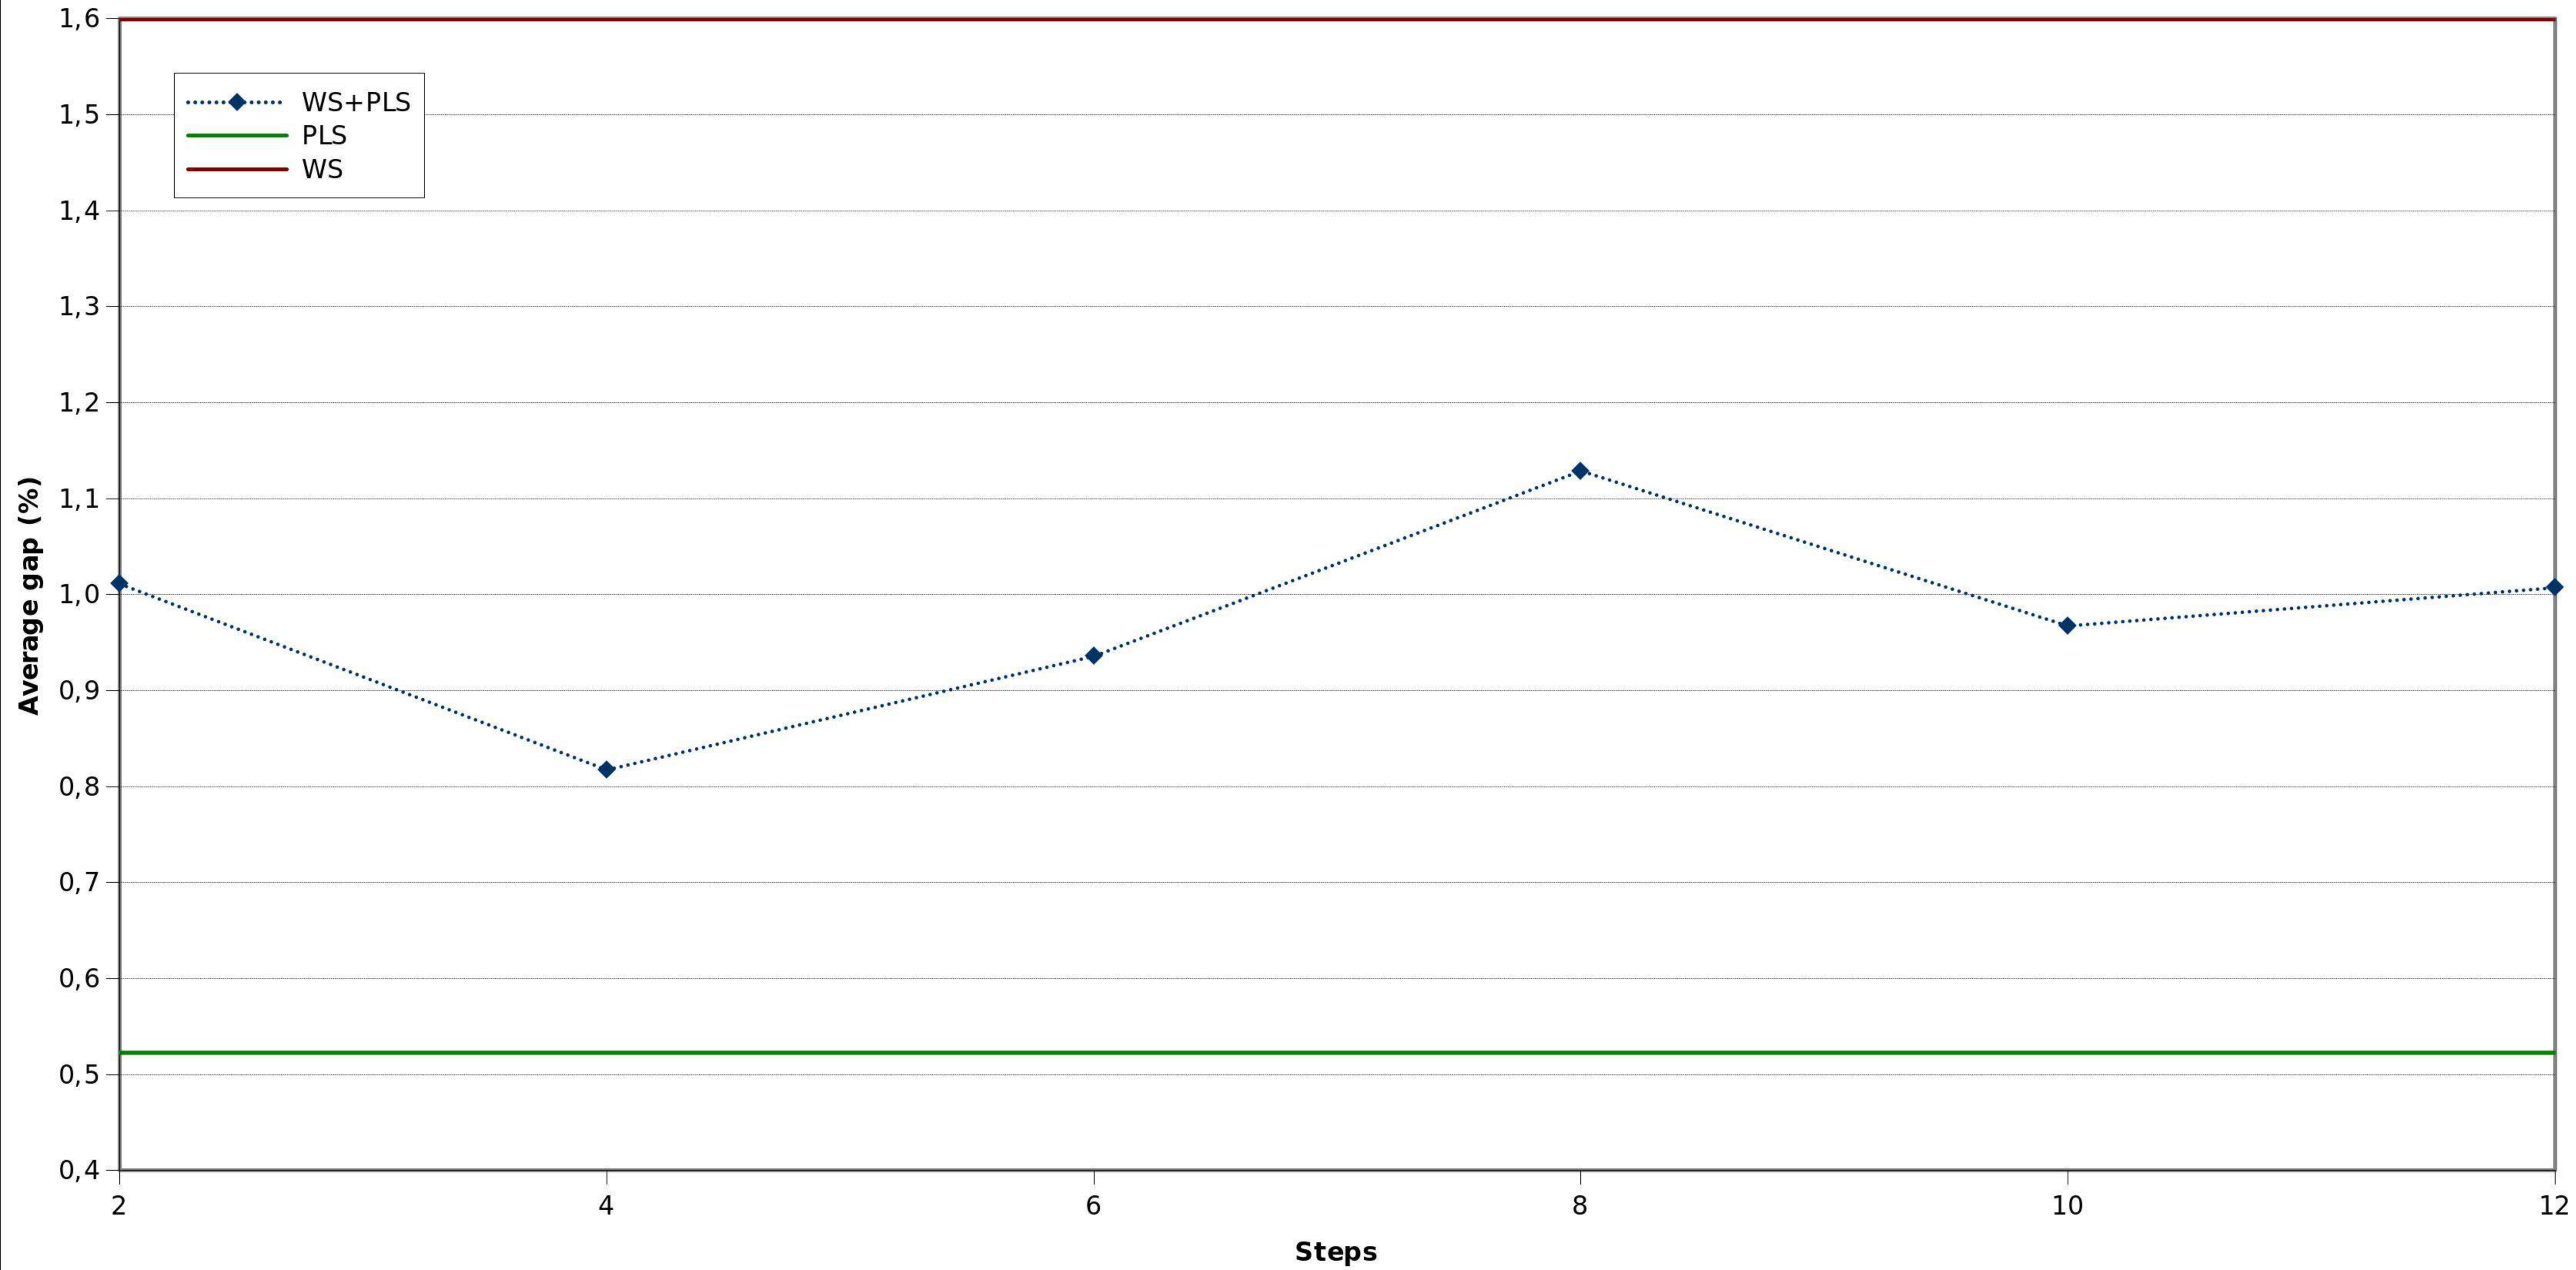

**Average distance to optimum (%) for 100 items (random Instances A) - T1**

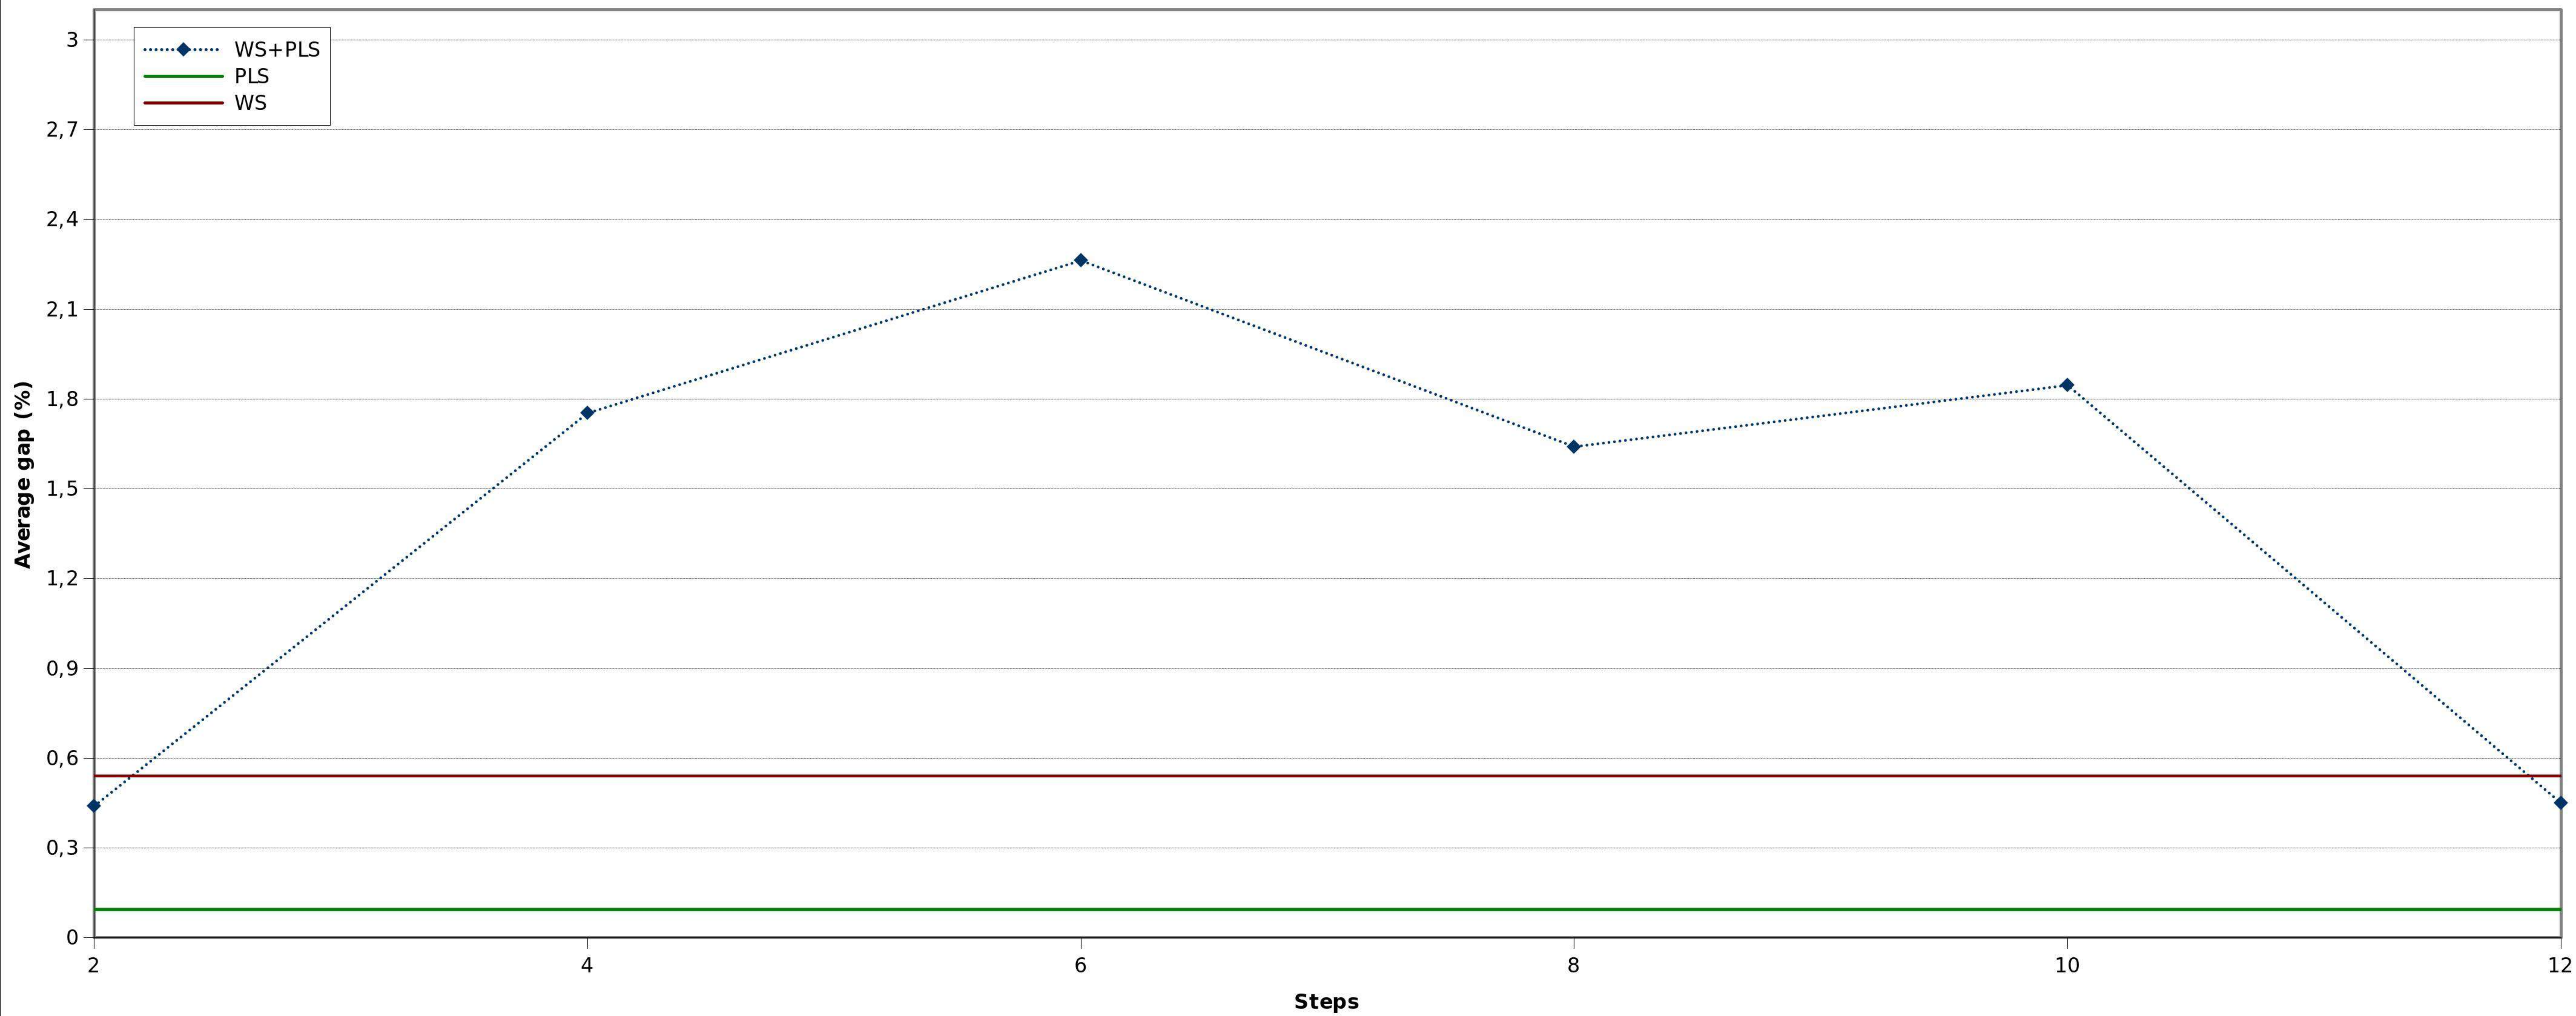

**Average distance to optimum (%) for 100 items (random Instances A) - T2**

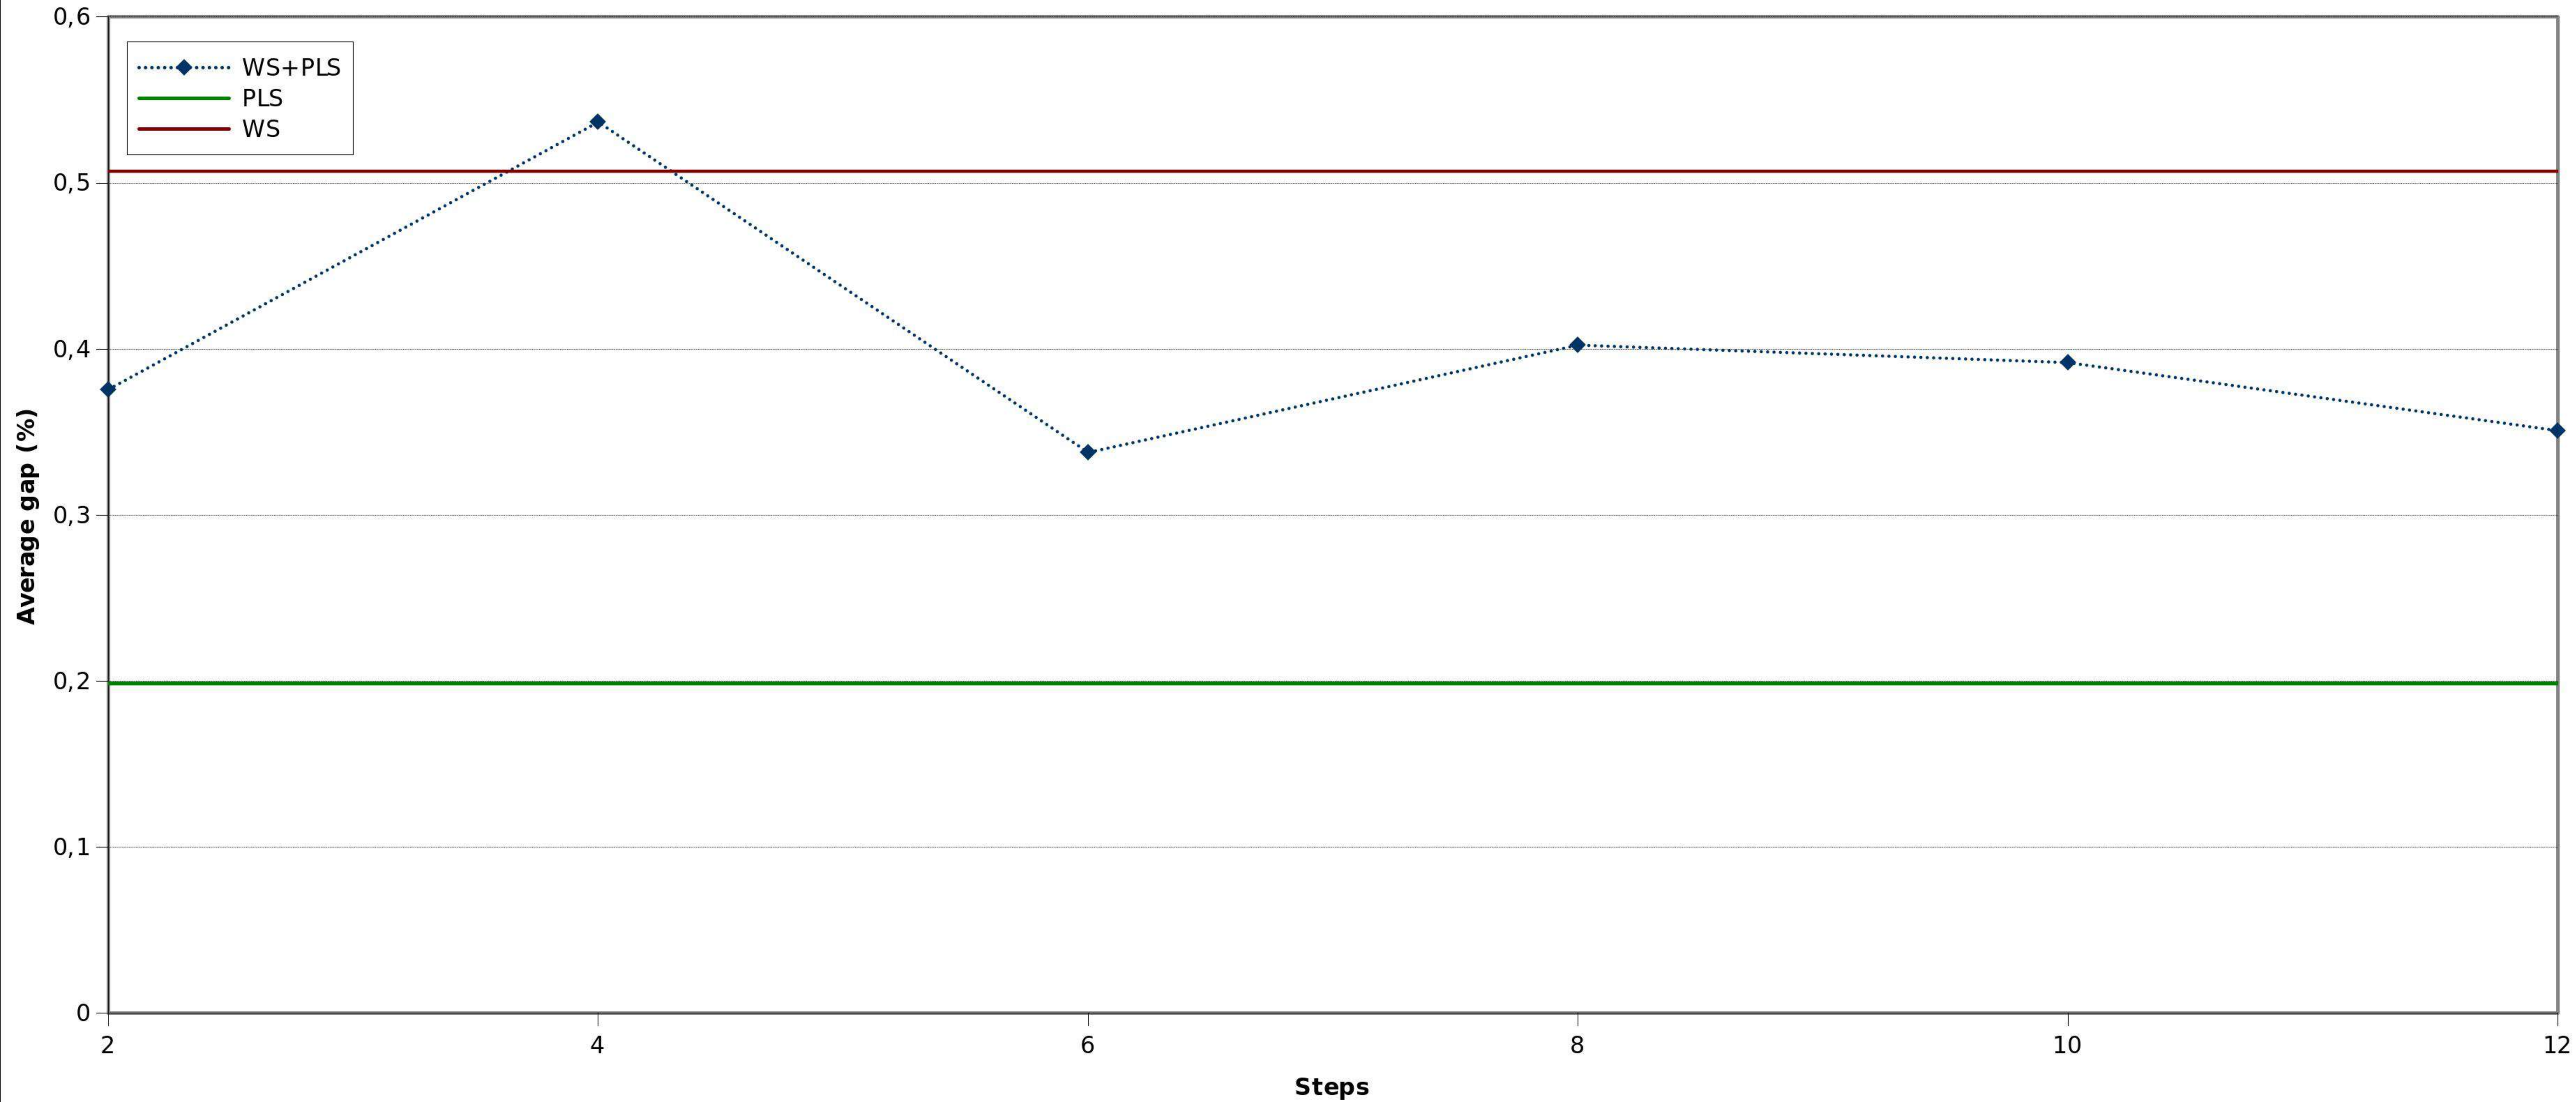

"Average distance to optimum (%) for 100 items (random Instances A) - T3"

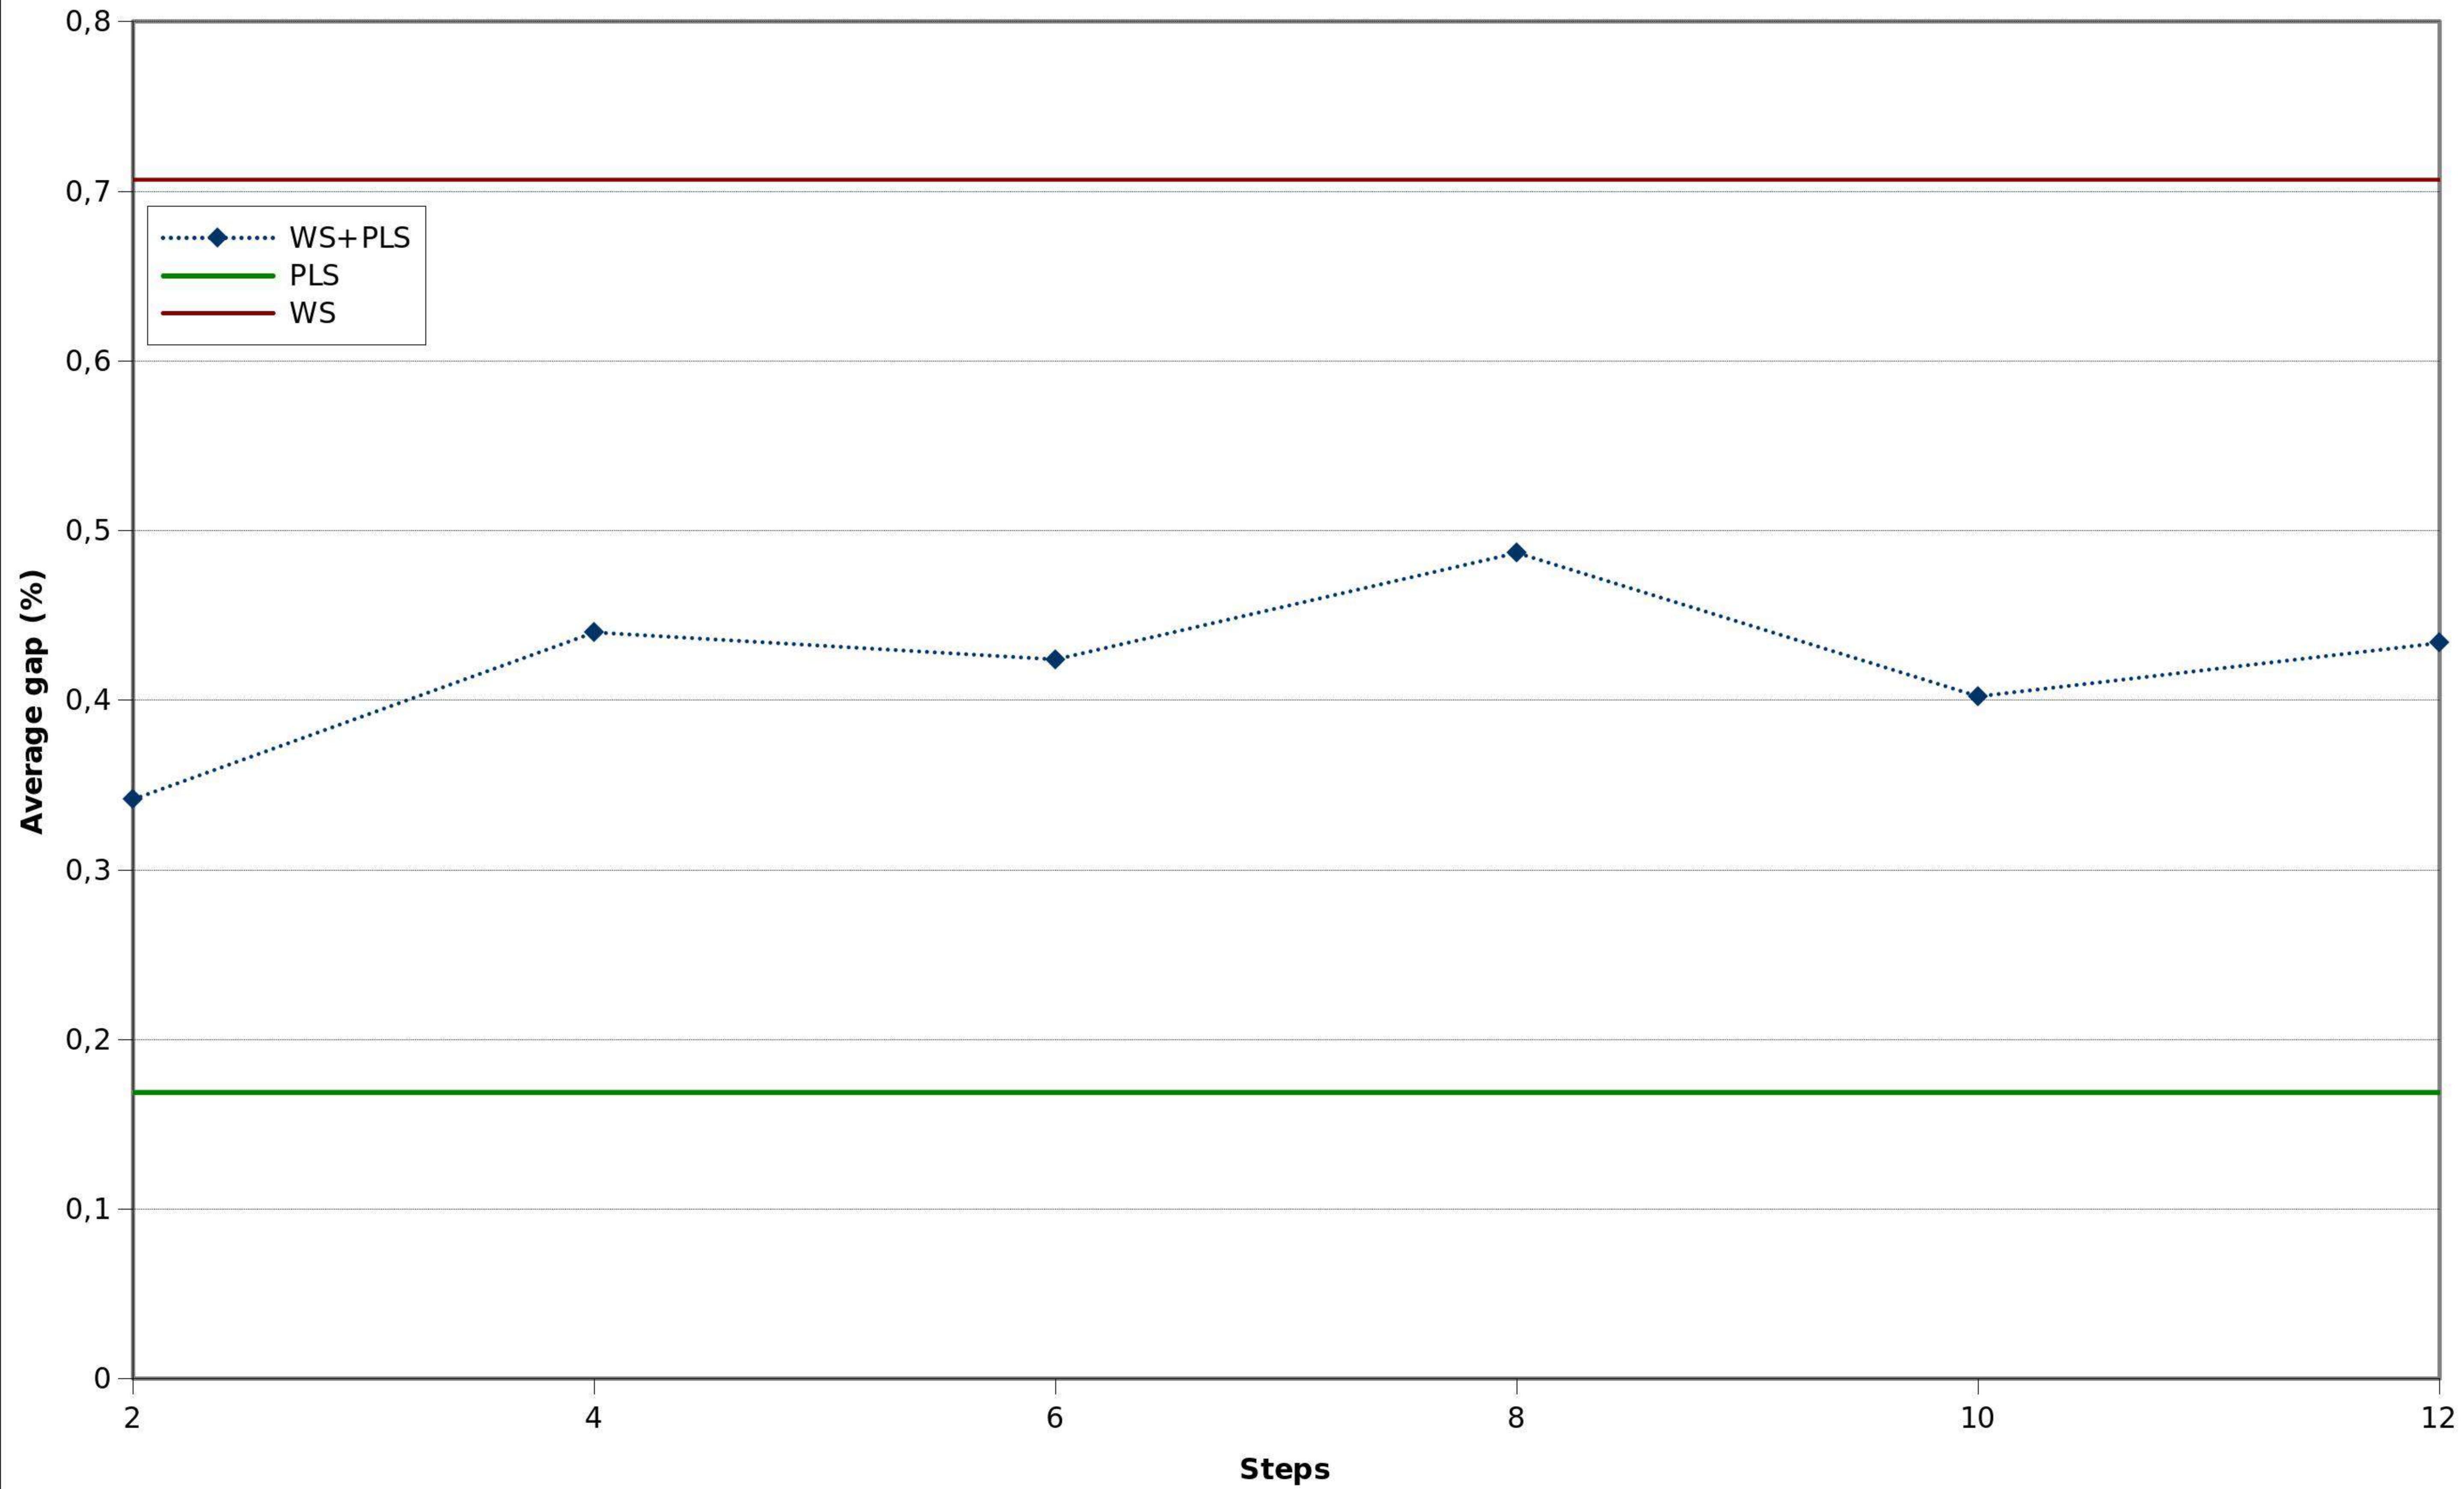

**Average distance to optimum (%) for 100 items (random Instances A) - T4**

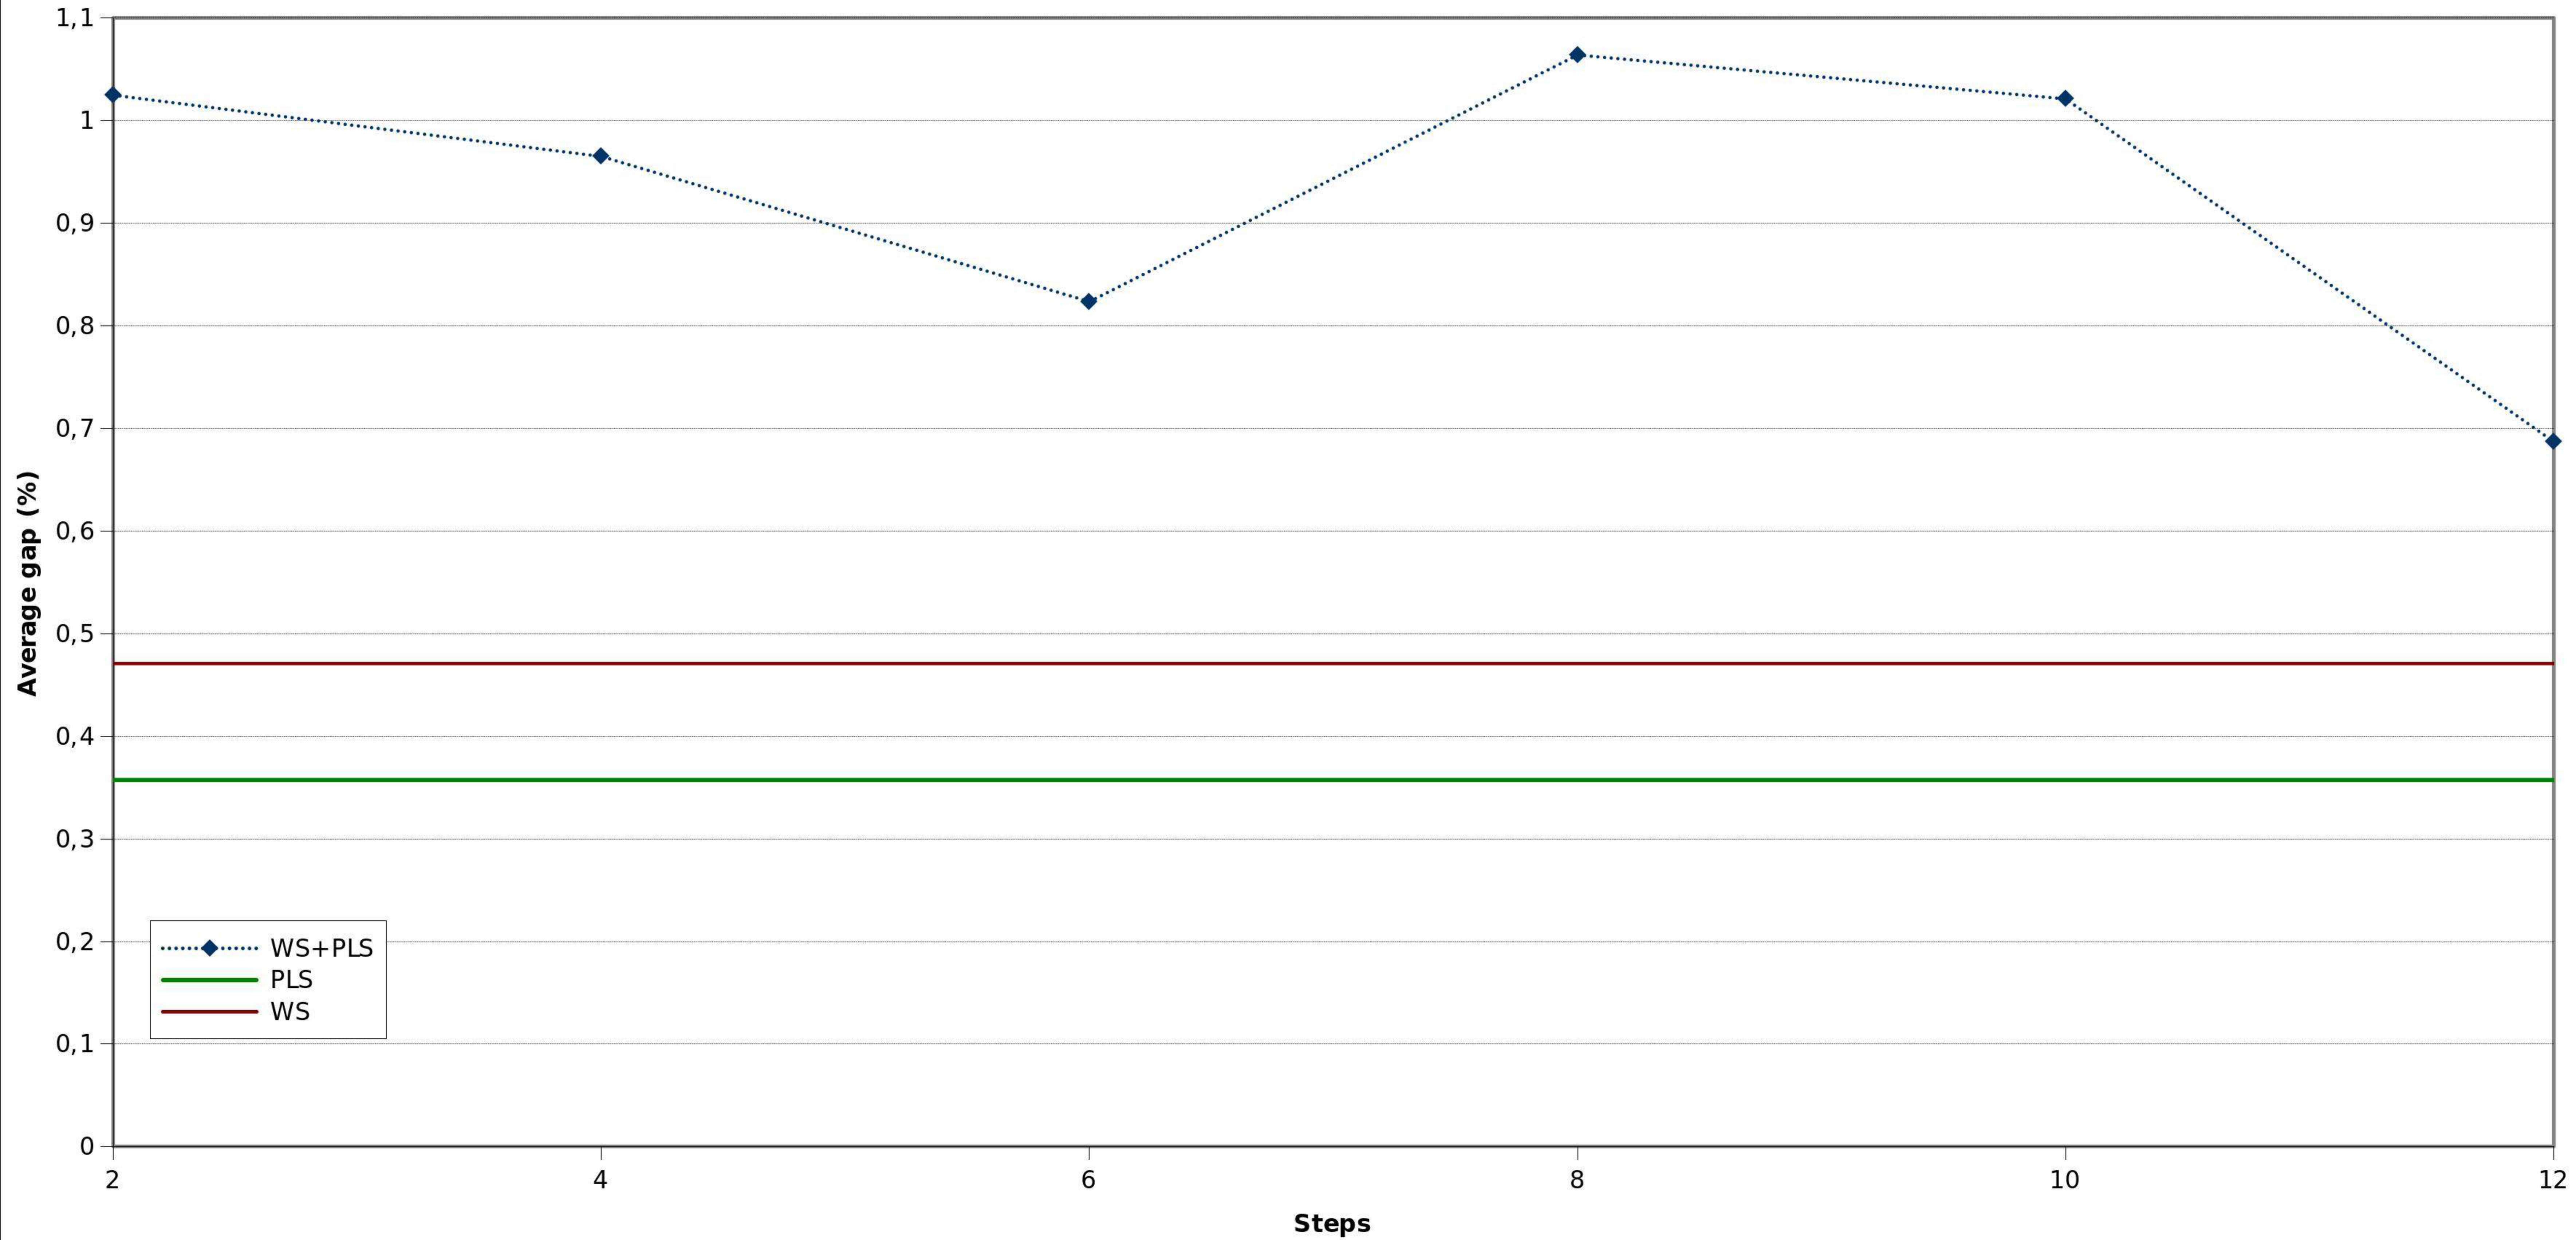

**Average distance to optimum (%) for 100 items (random Instances A) - T6**

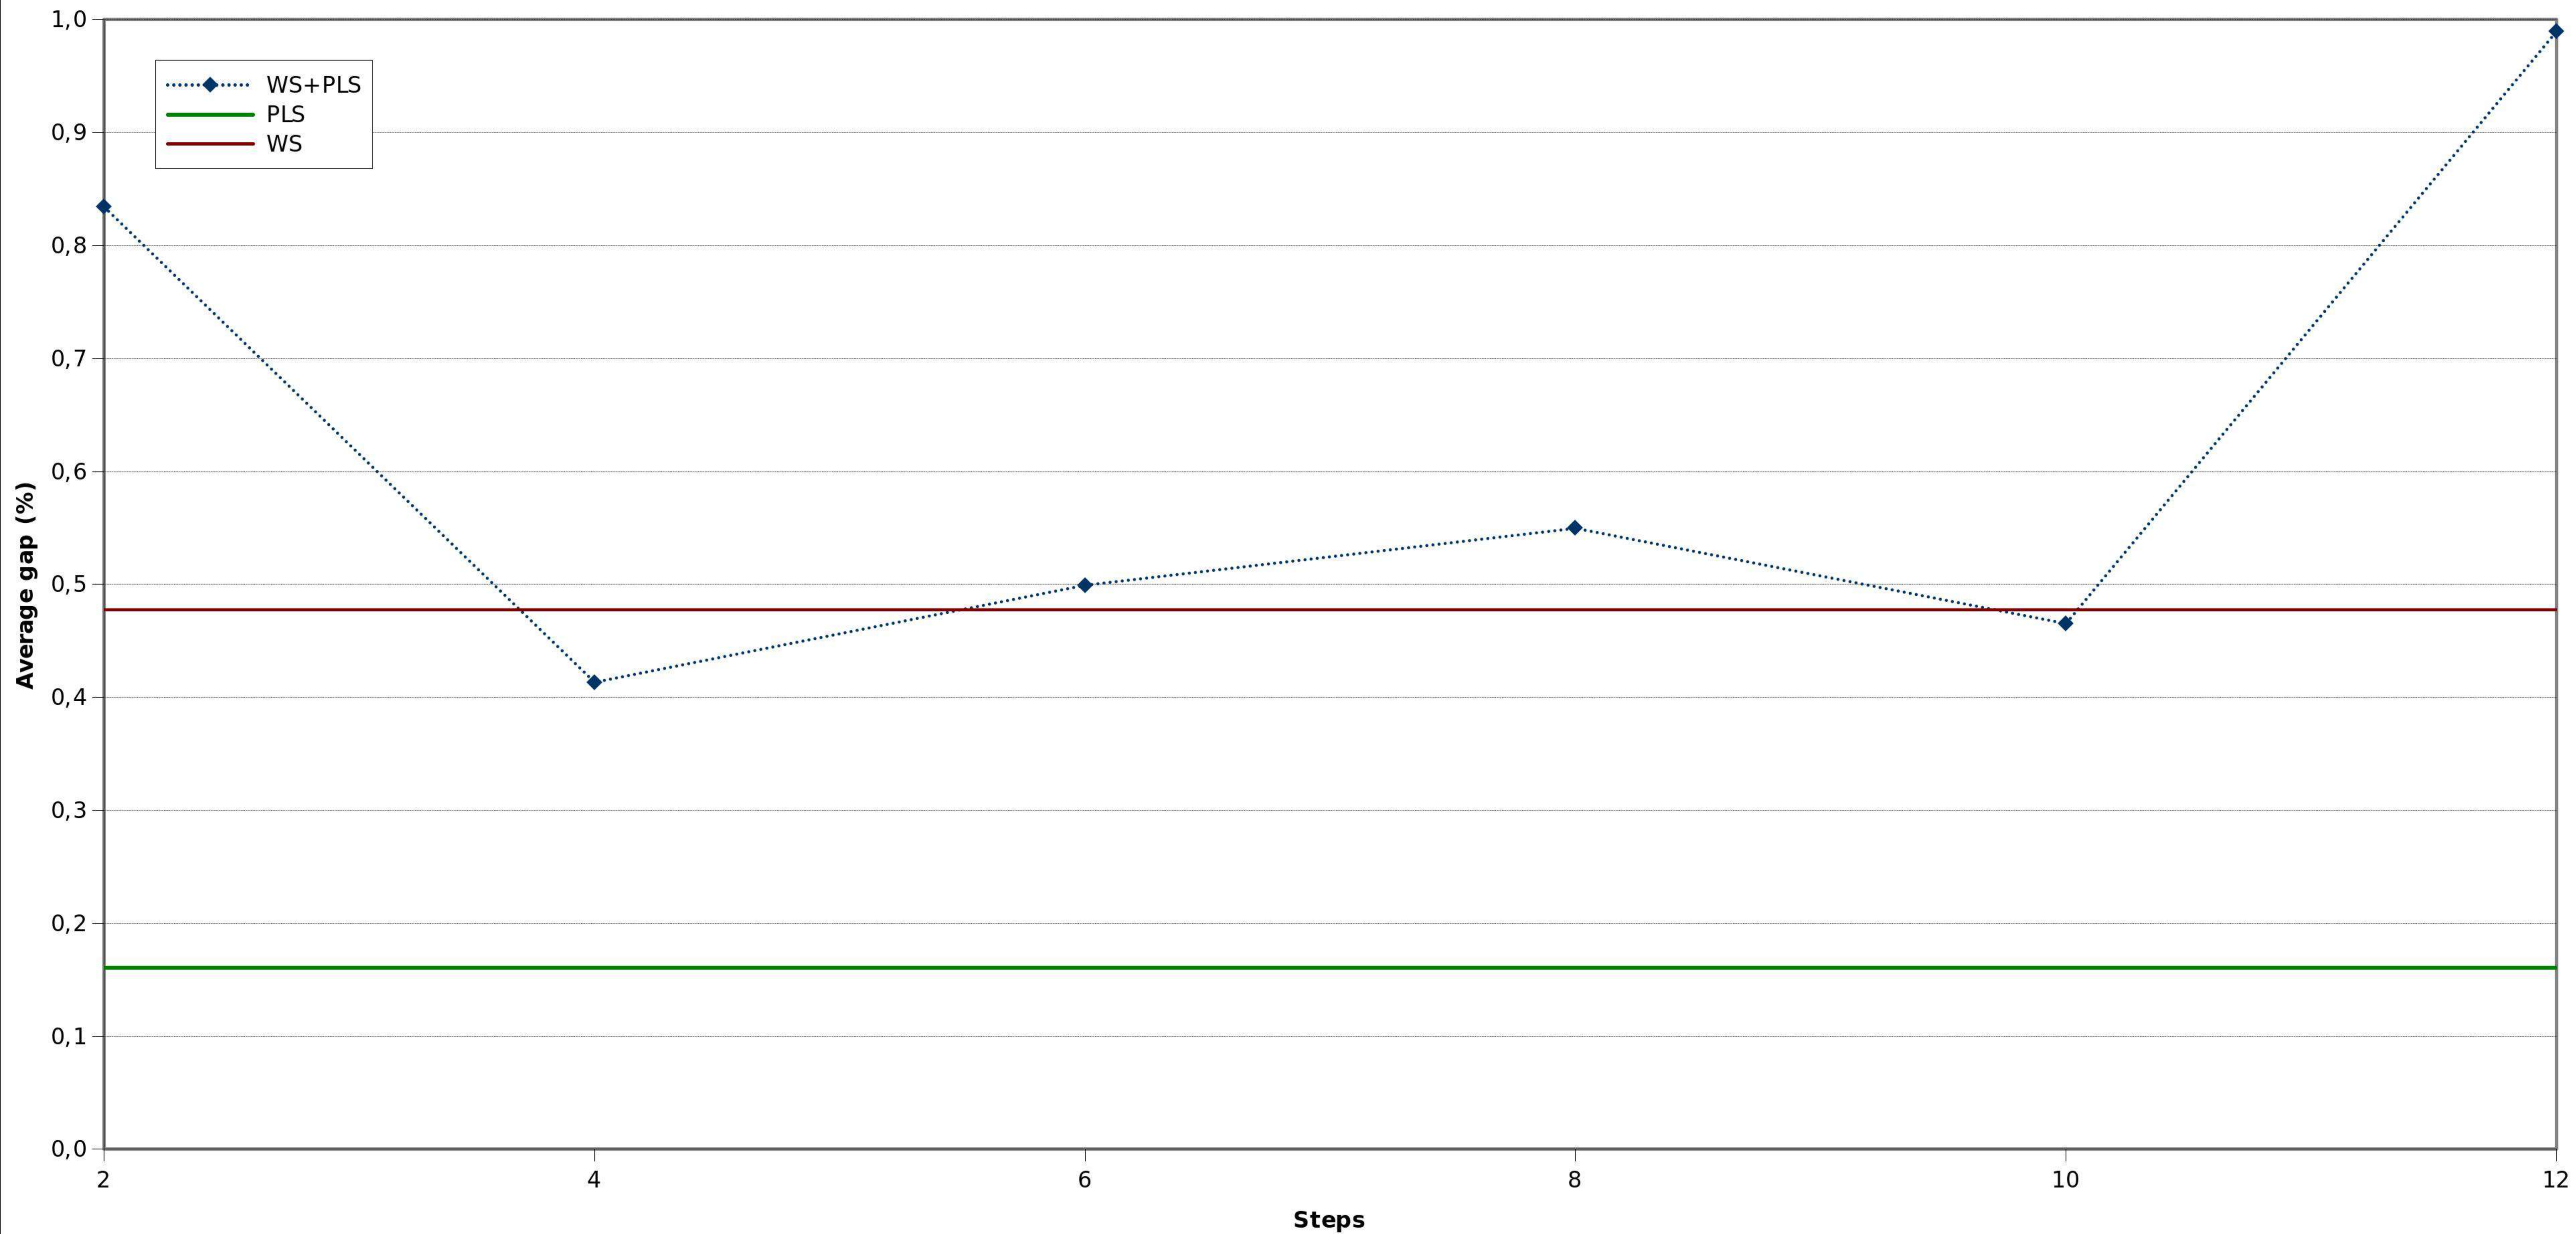

**Average distance to optimum (%) for 100 items (random Instances A) - T8**

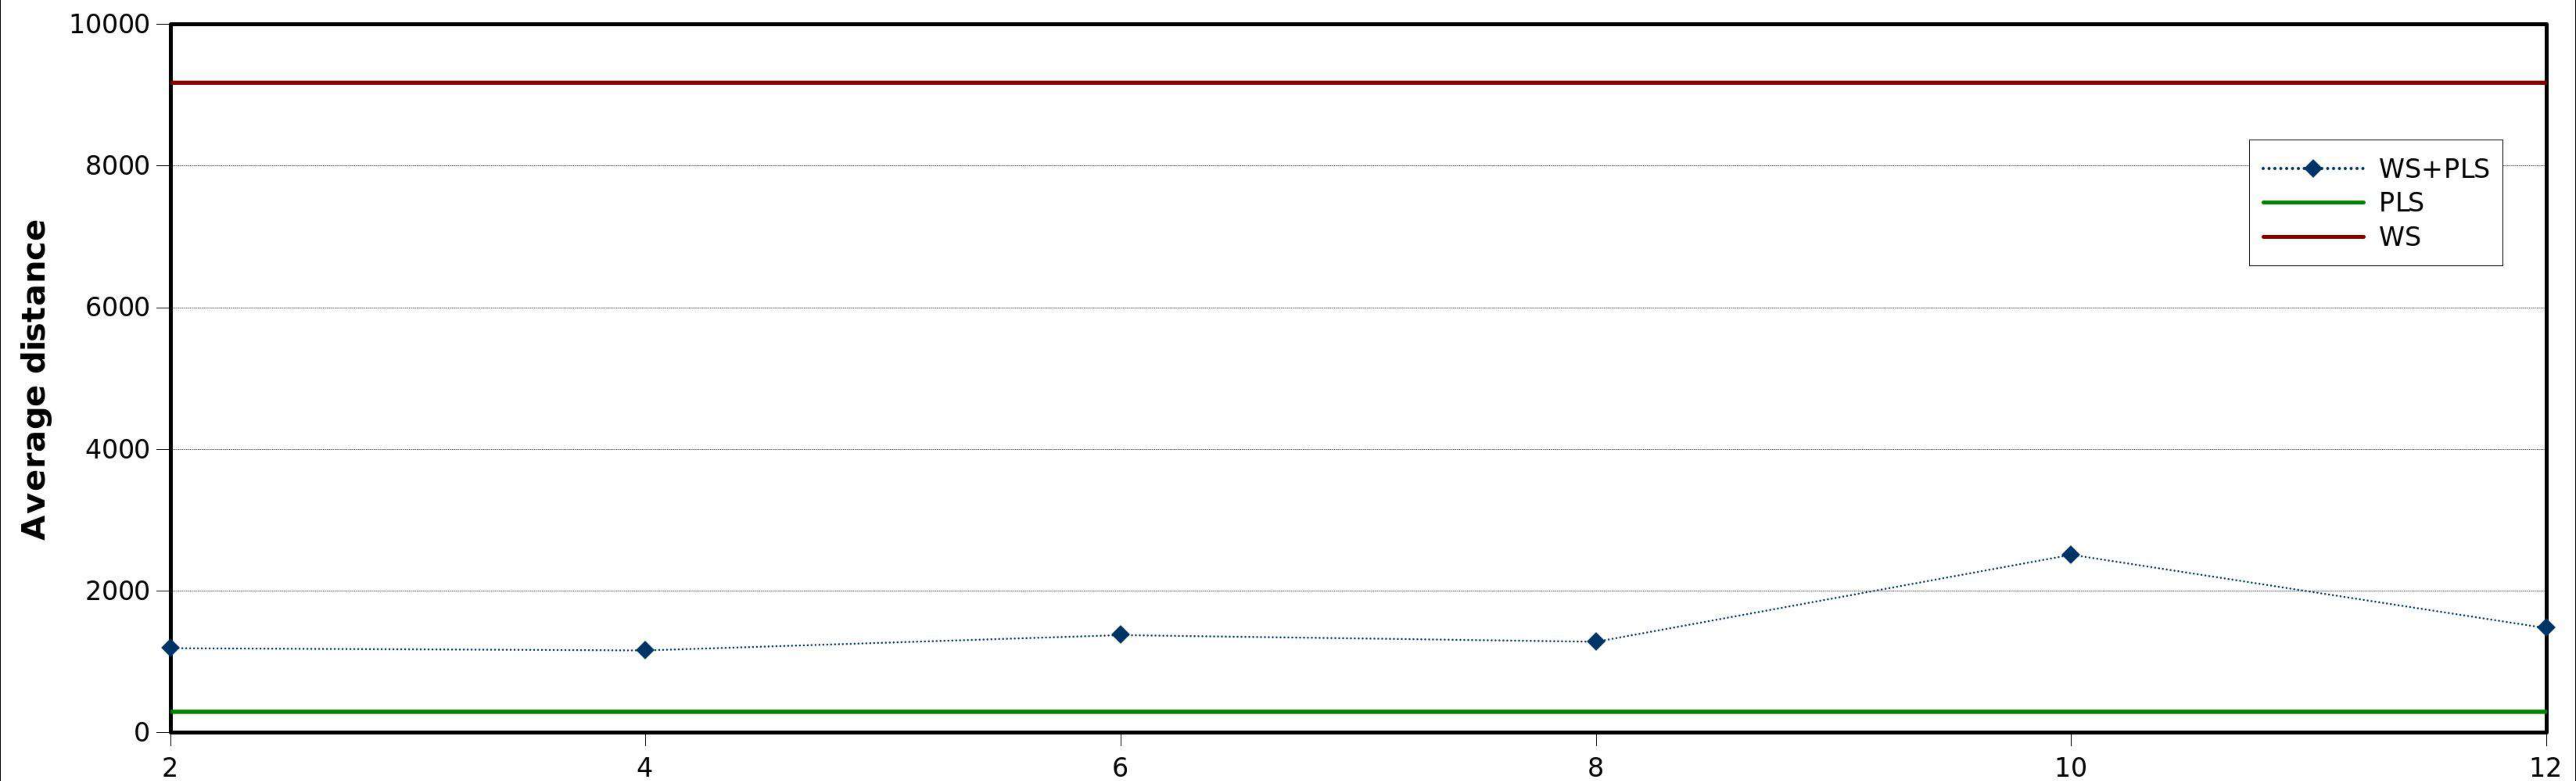

**Average distance to optimum (%) for 100 items (random Instances A) - T9**

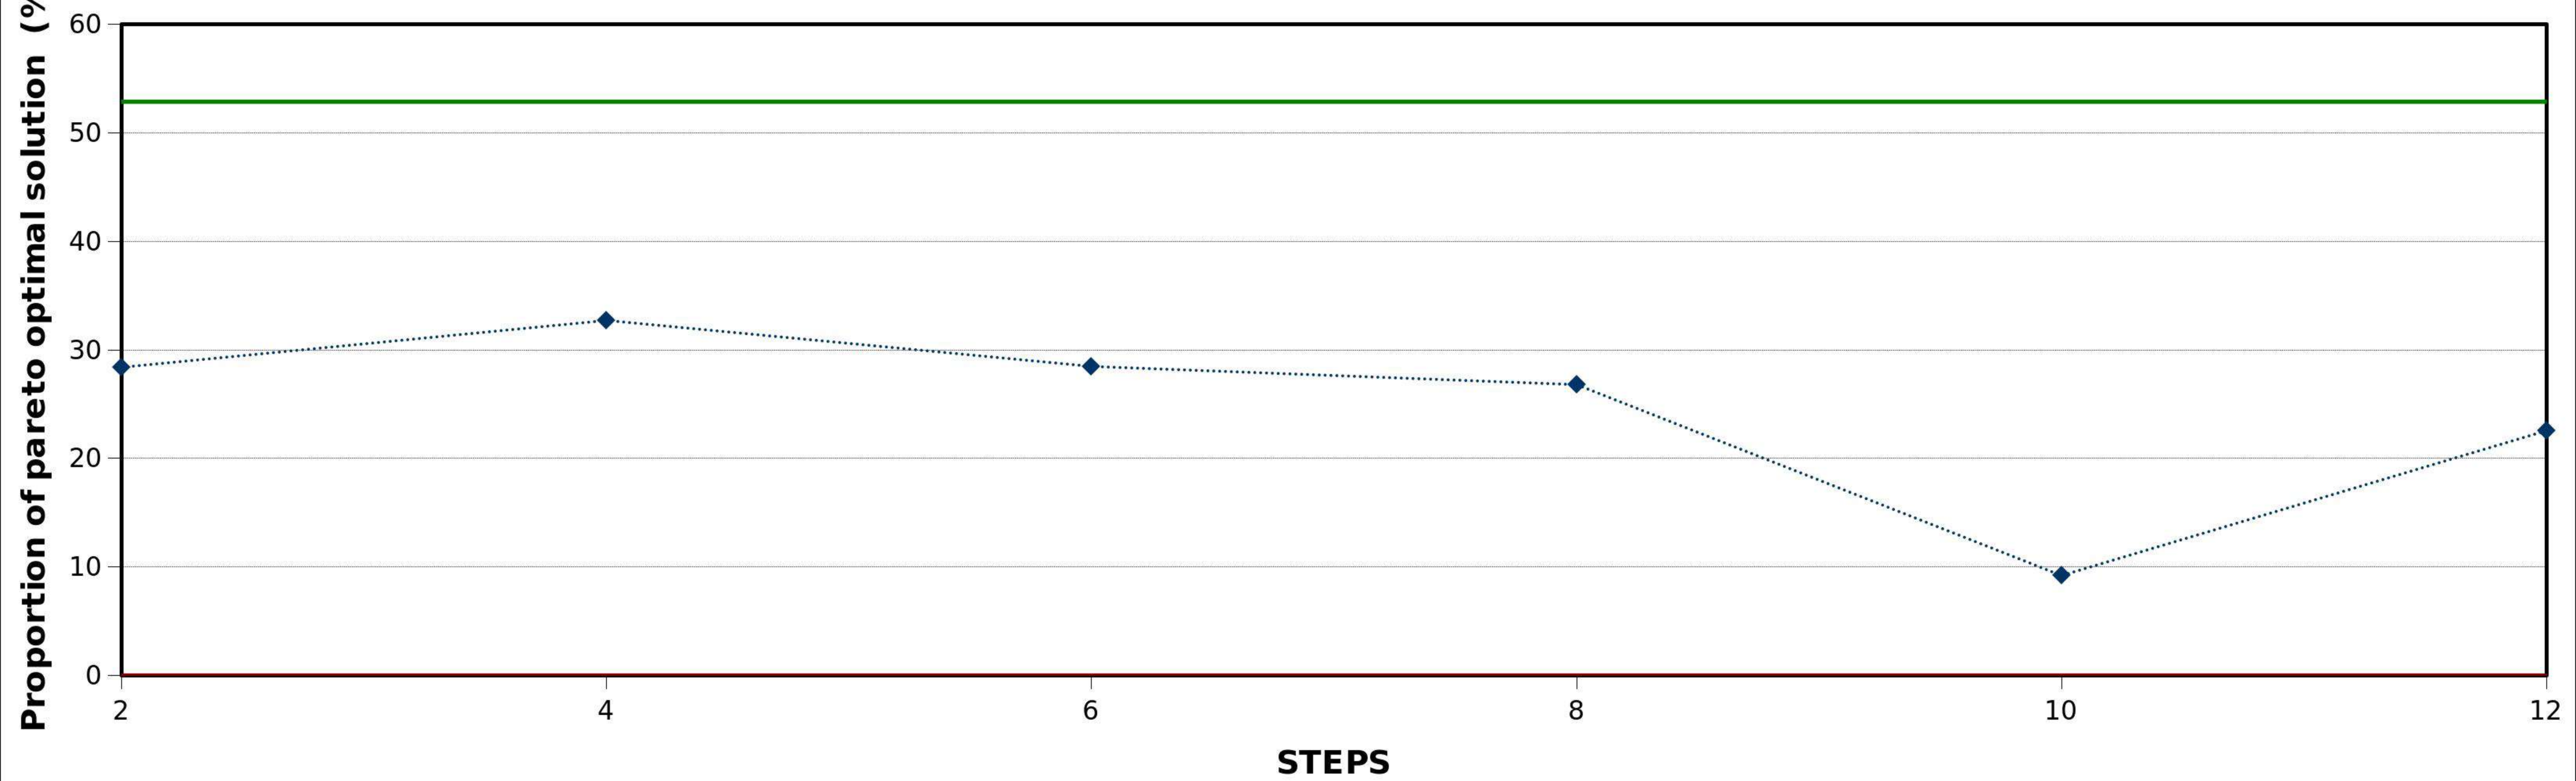

**Average distance Indicator for 100 items (random instance A) - T0**

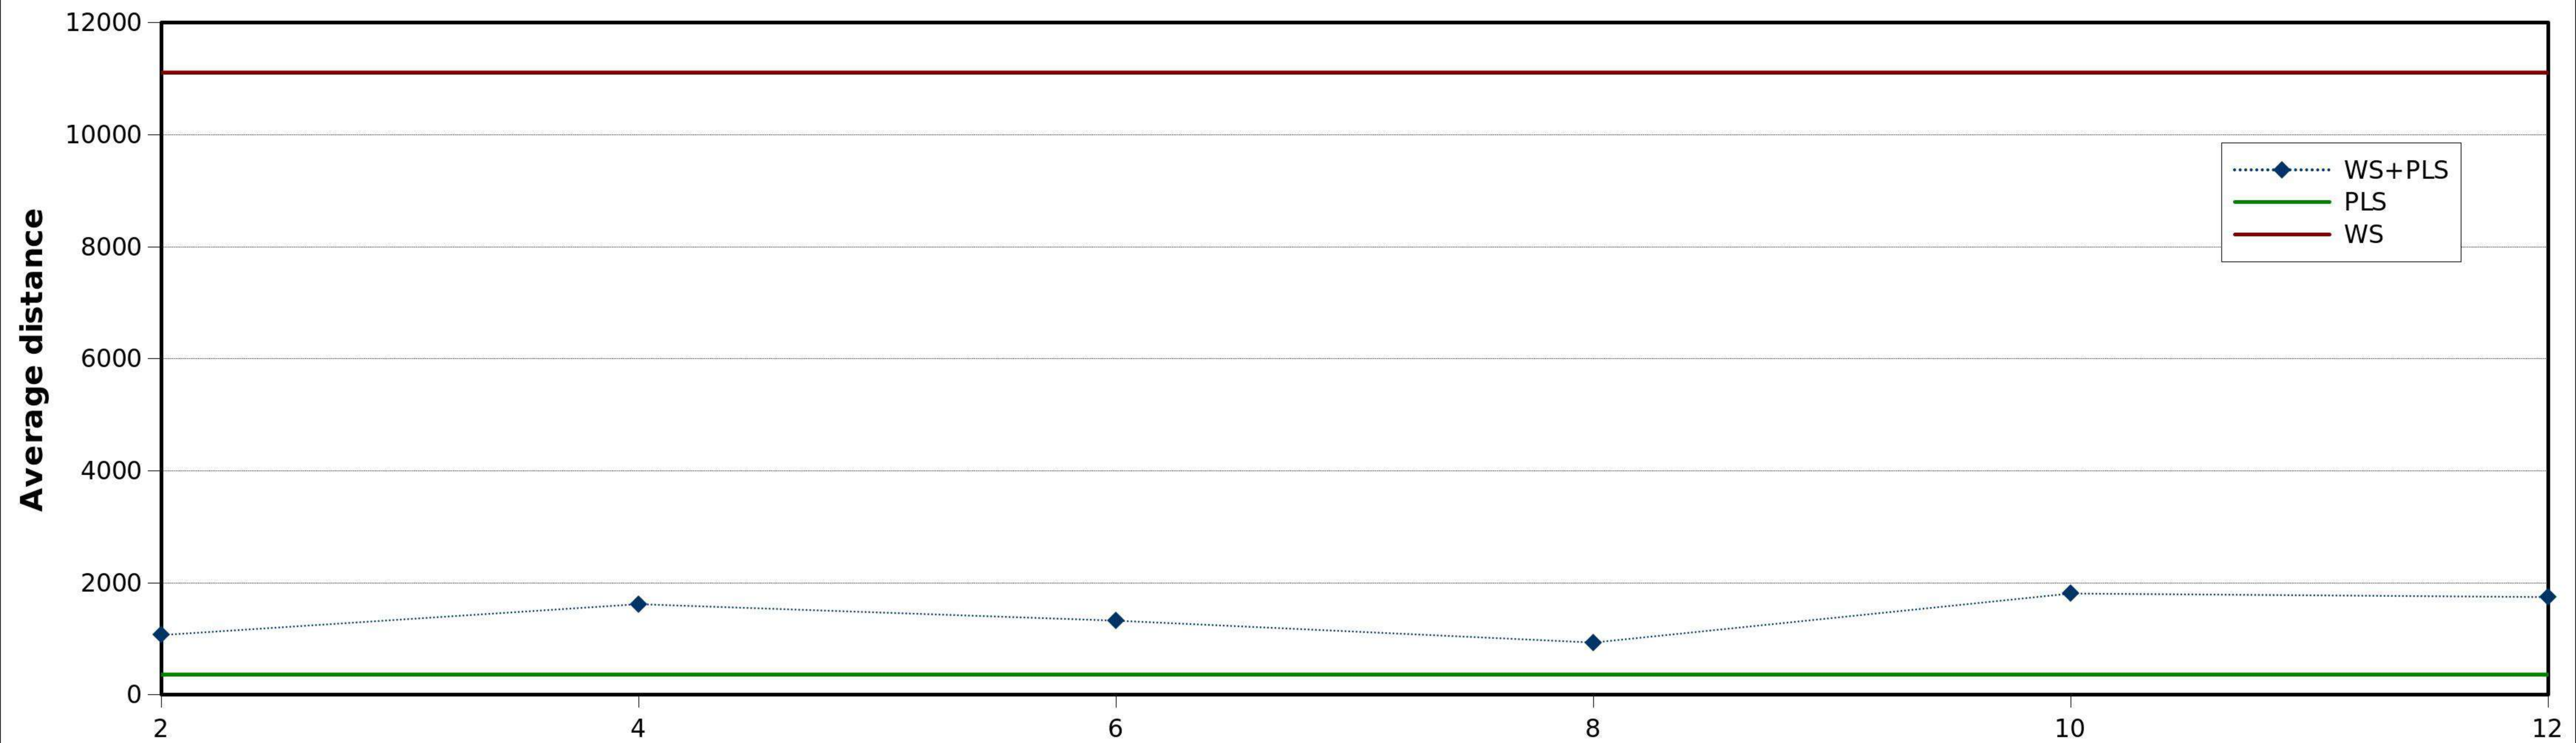

**Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T0**

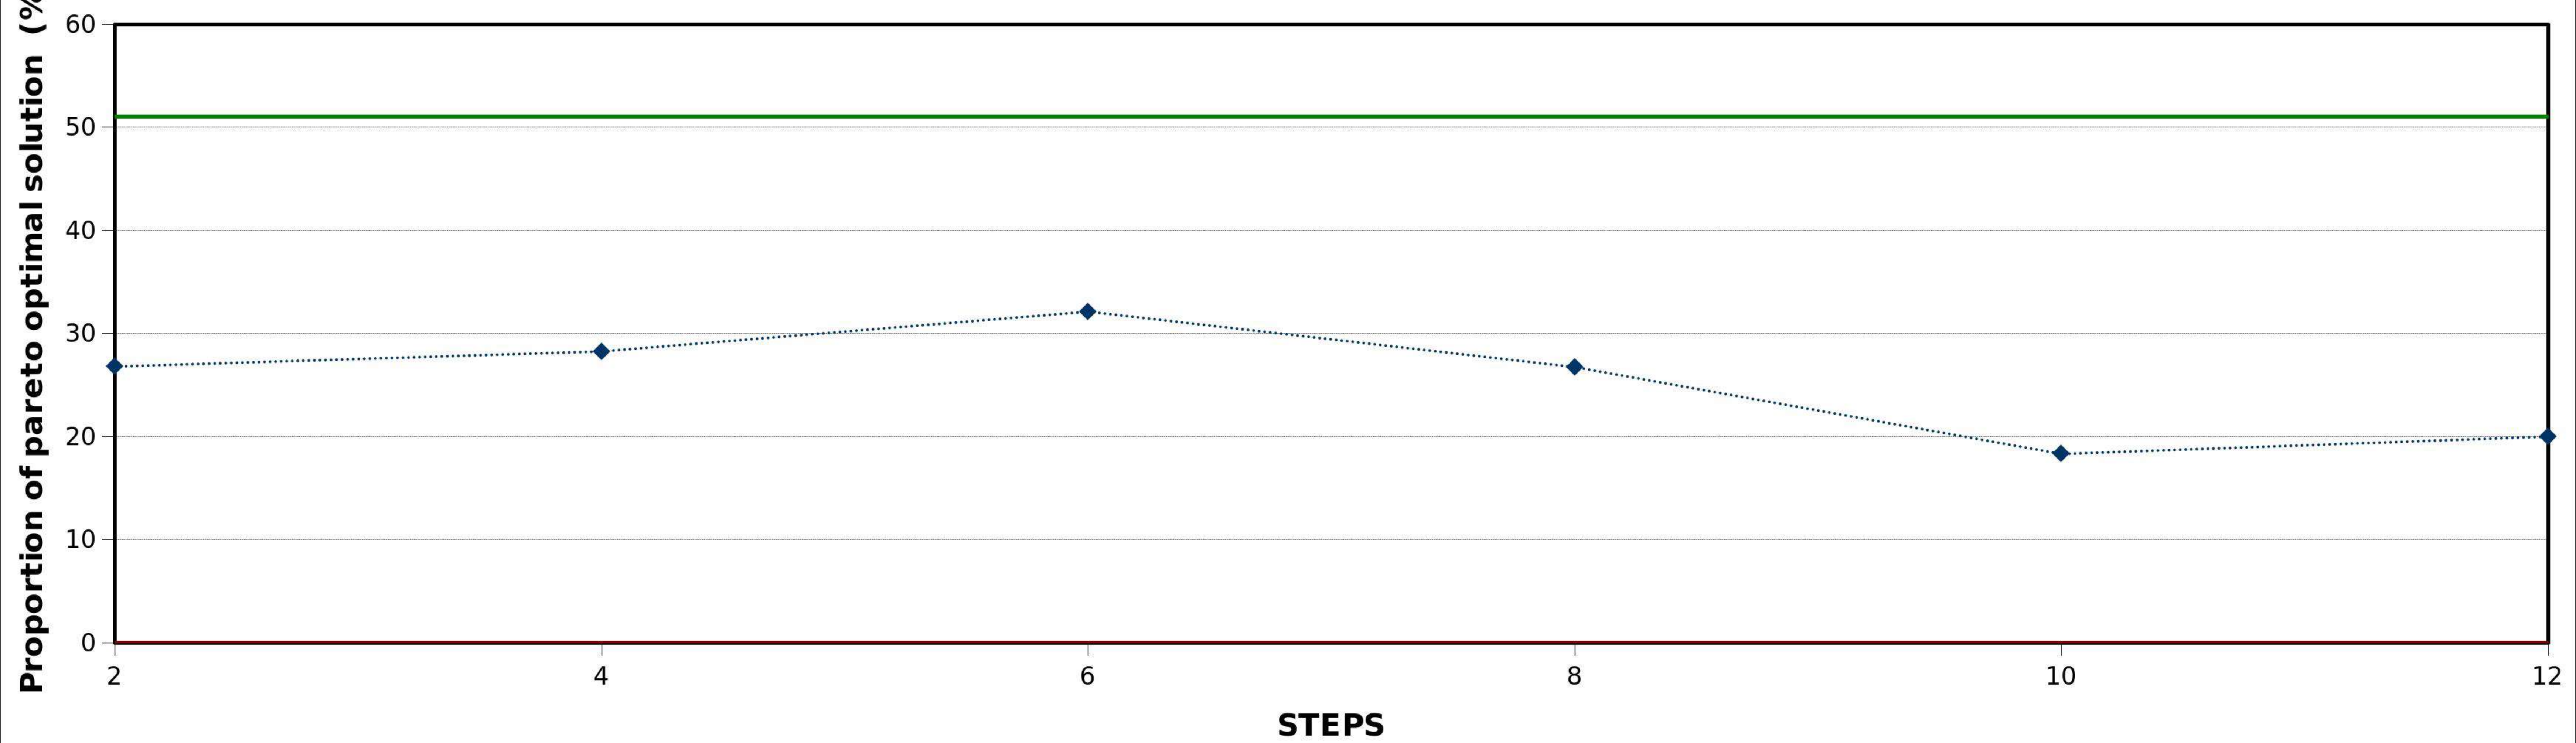

**Average distance Indicator for 100 items (random instance A) - T1**

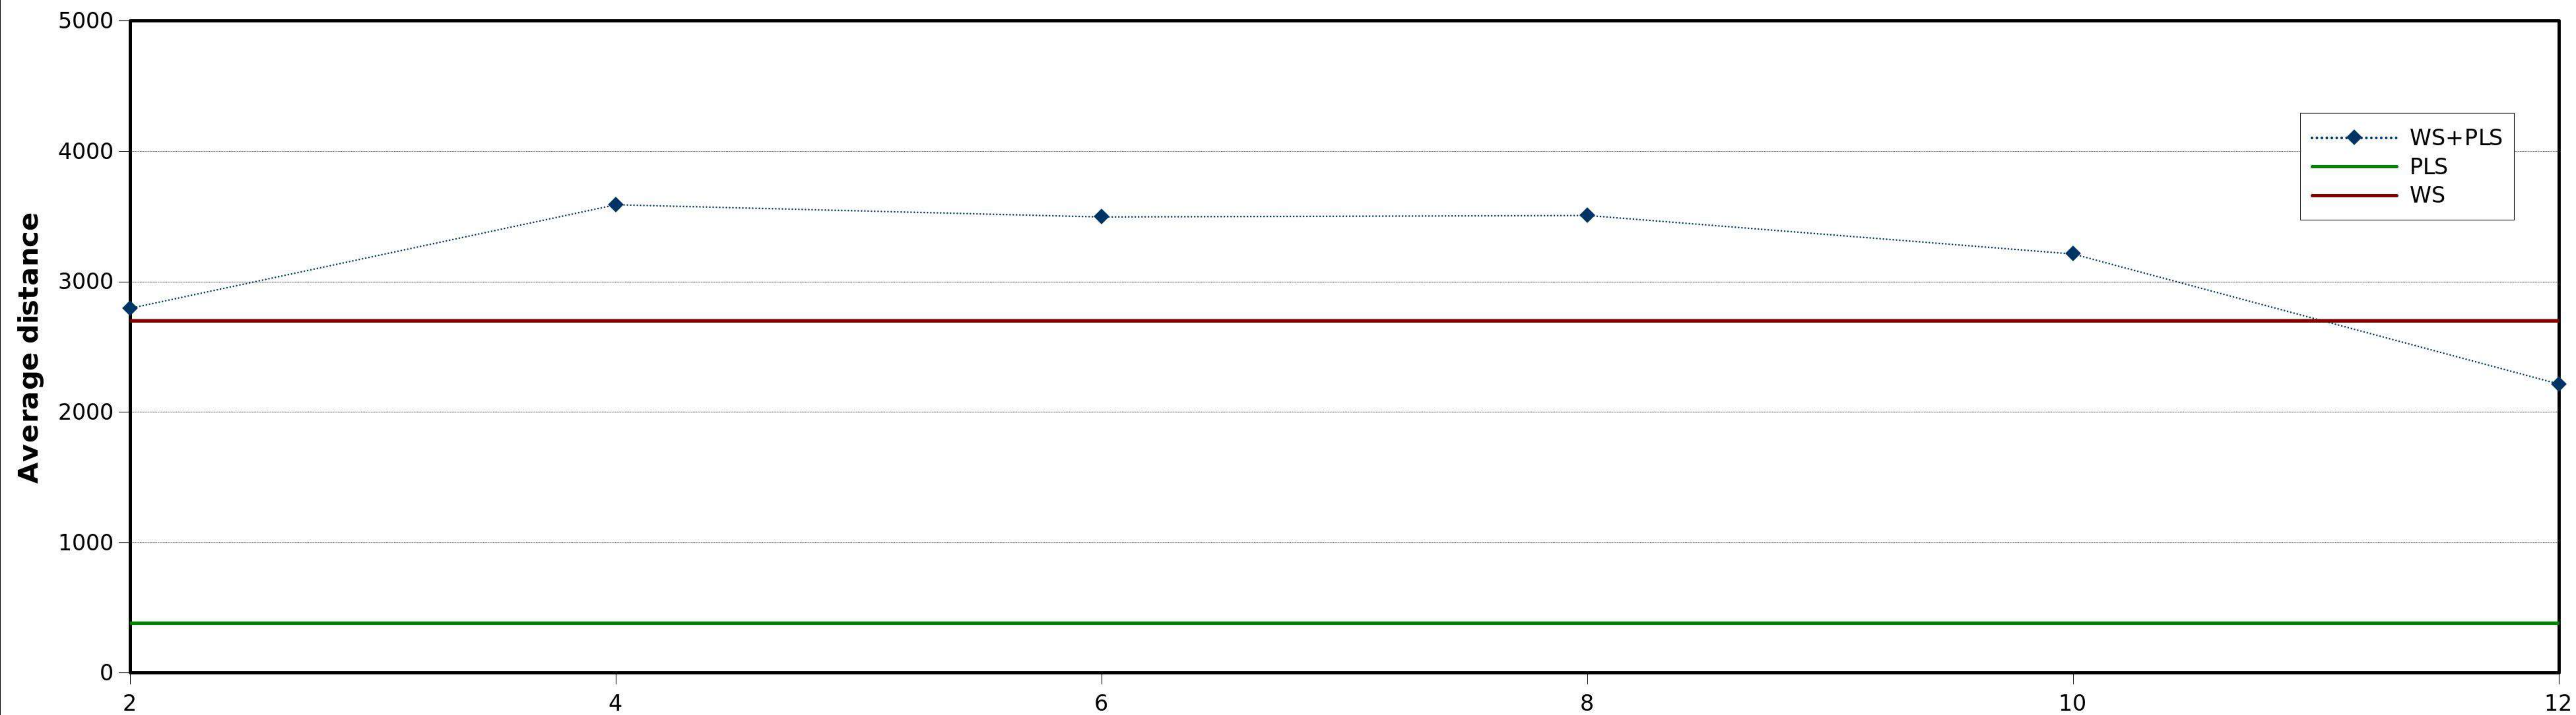

**Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T1**

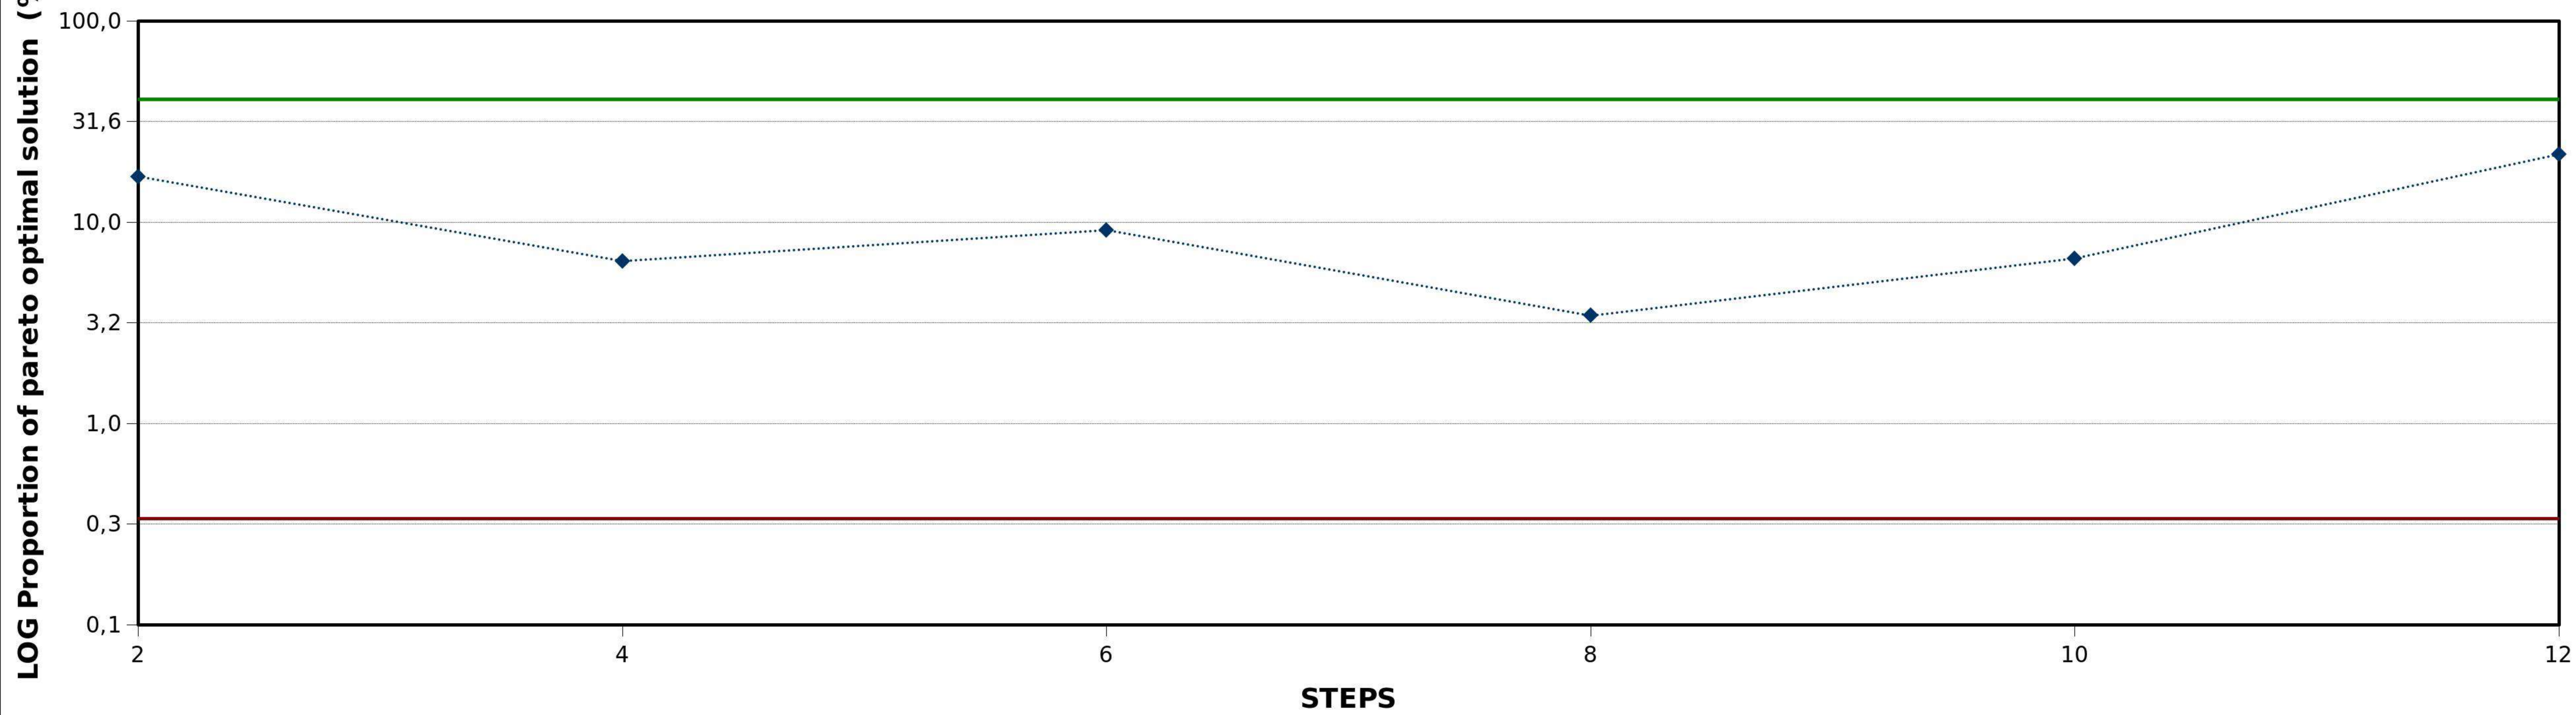

**Average distance Indicator for 100 items (random instance A) - T2**

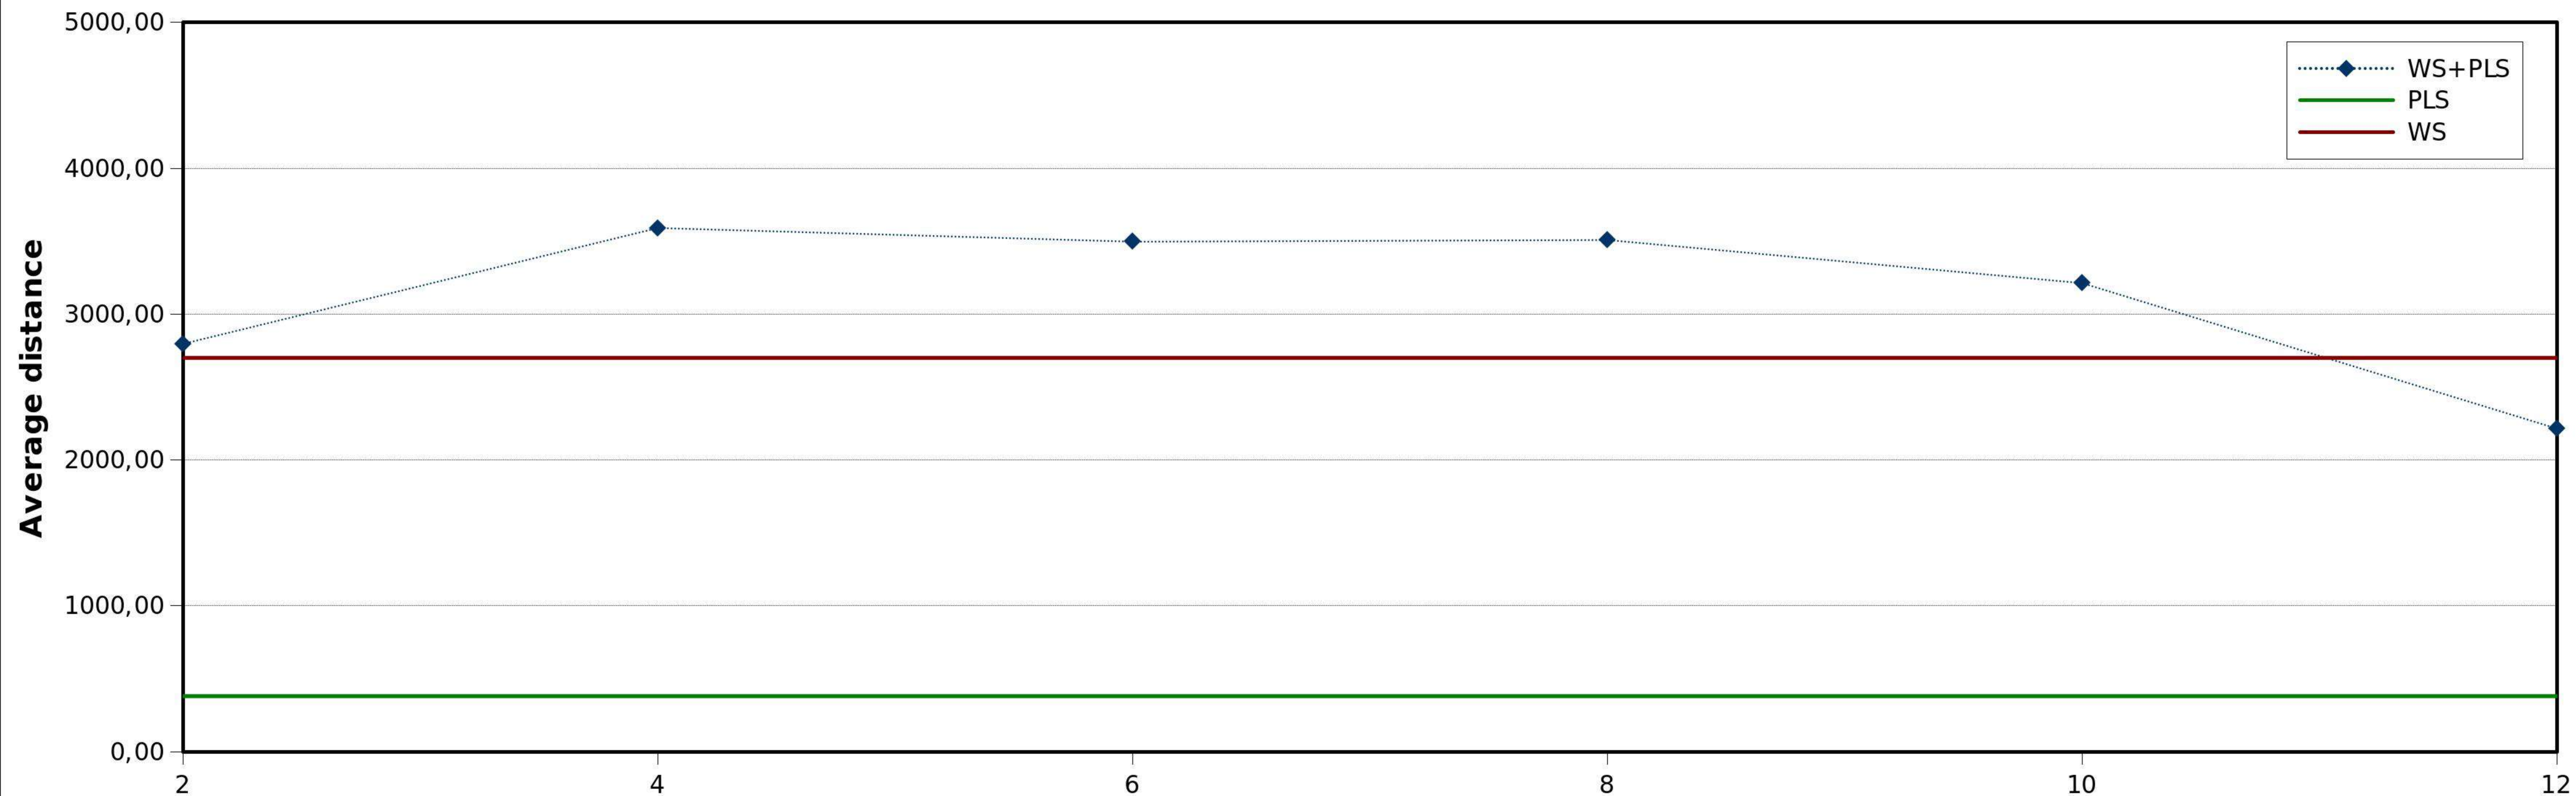

**LOG Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T2**

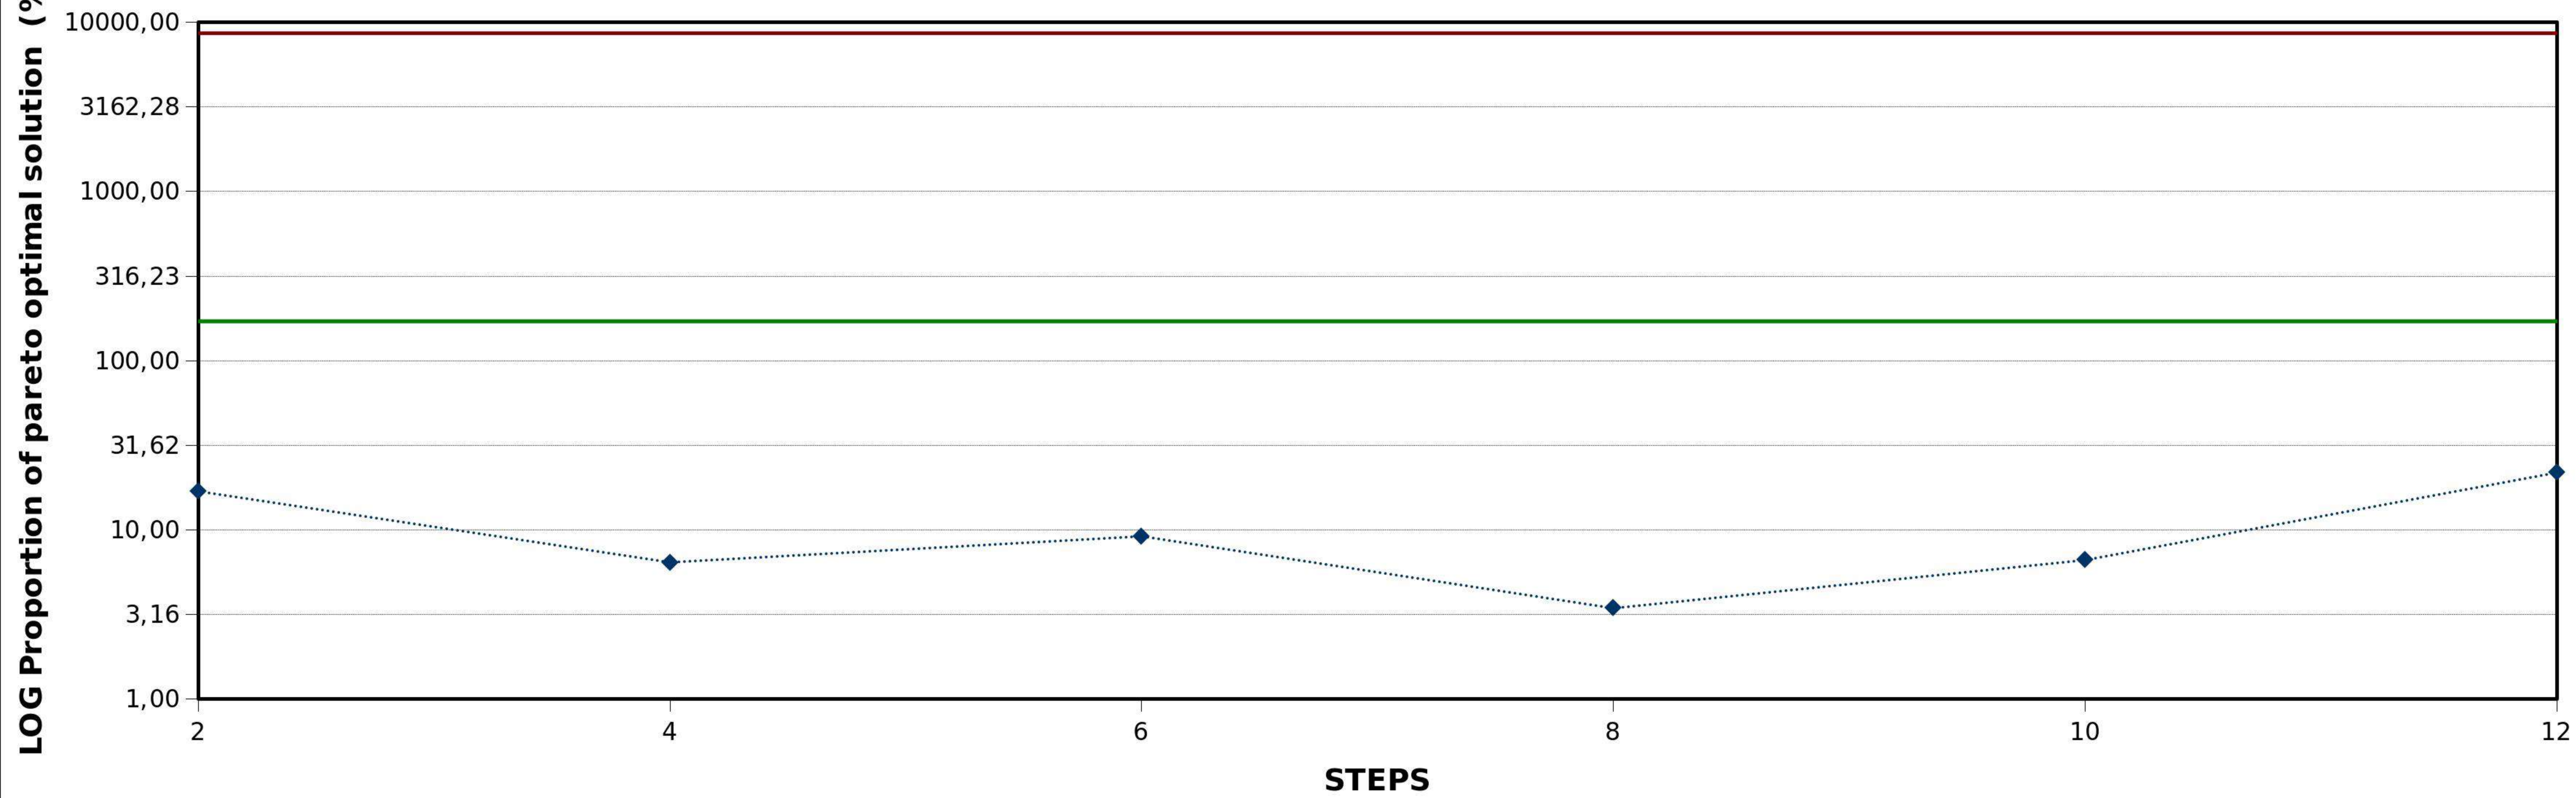

**Average distance Indicator for 100 items (random instance A) - T3**

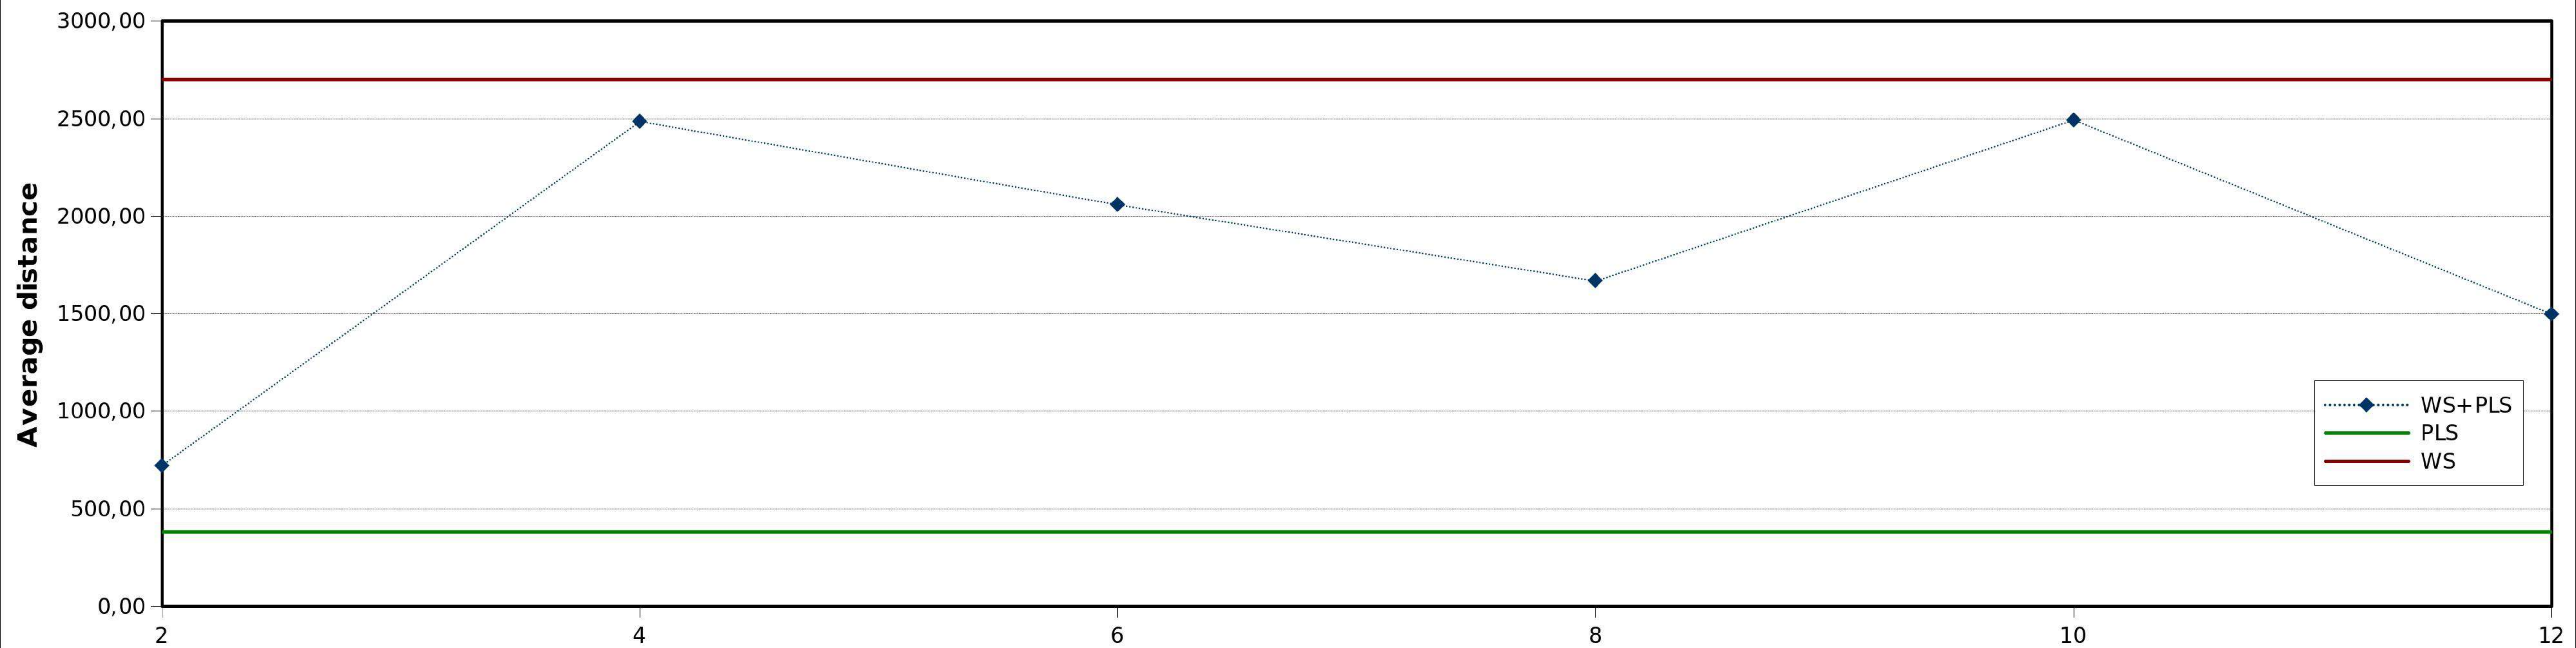

**LOG Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T3**

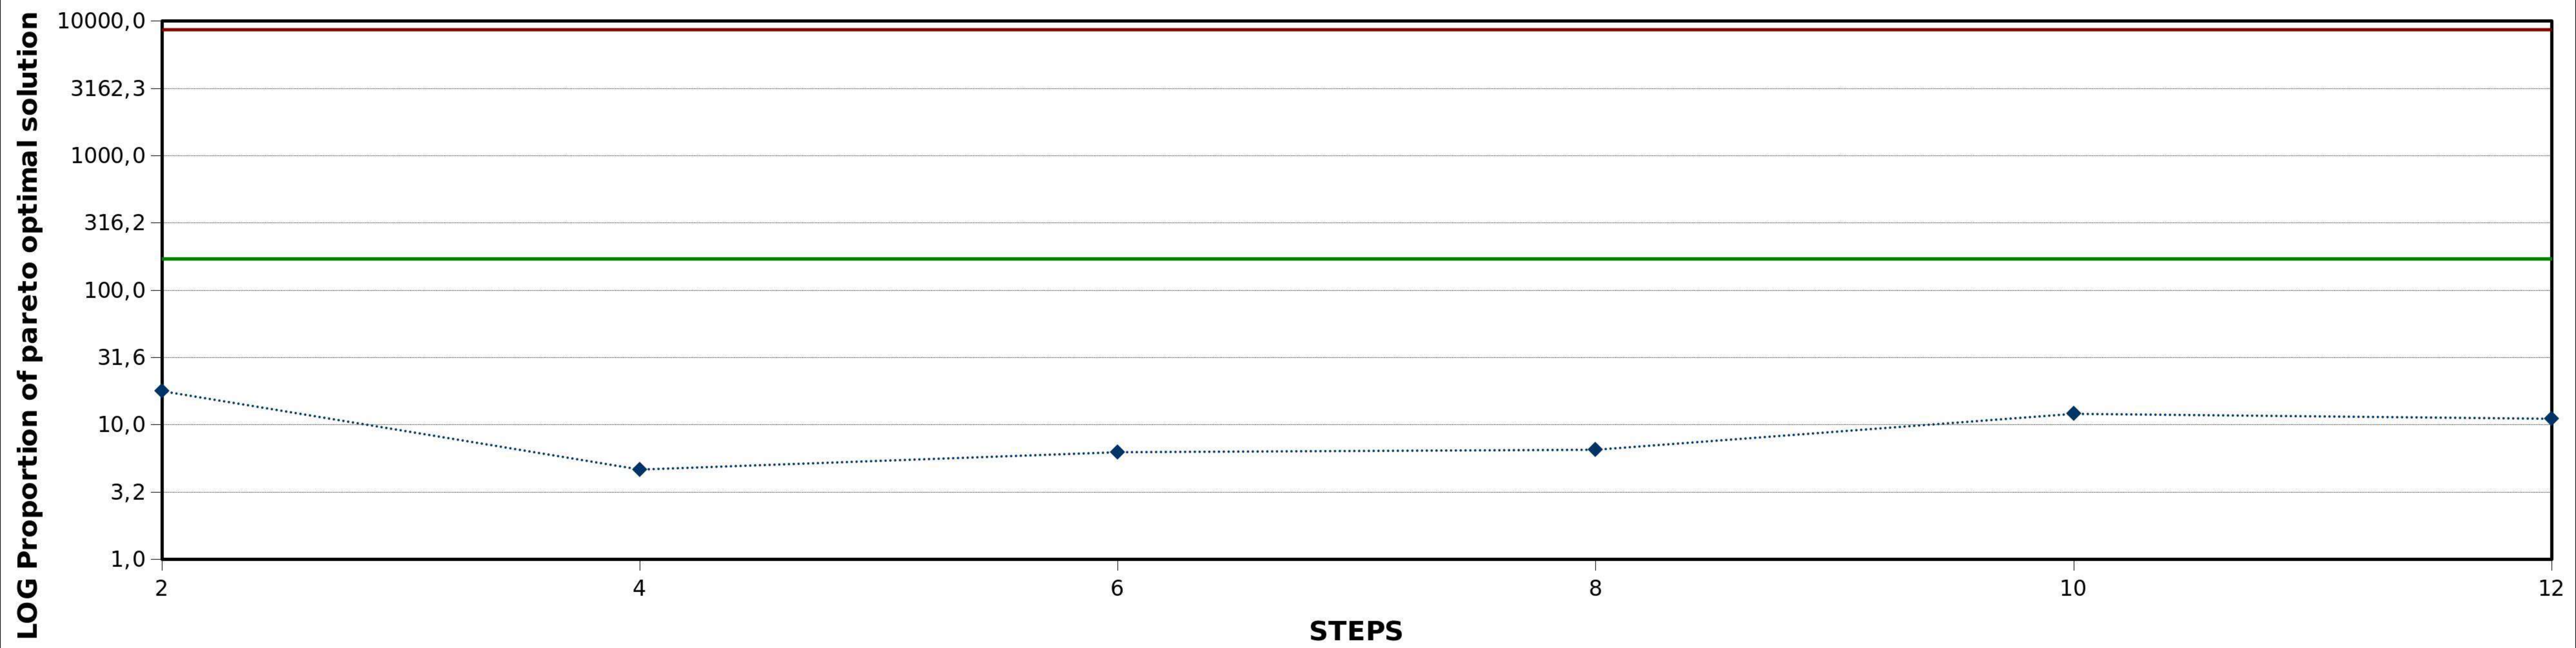

**Average distance Indicator for 100 items (random instance A) - T4**

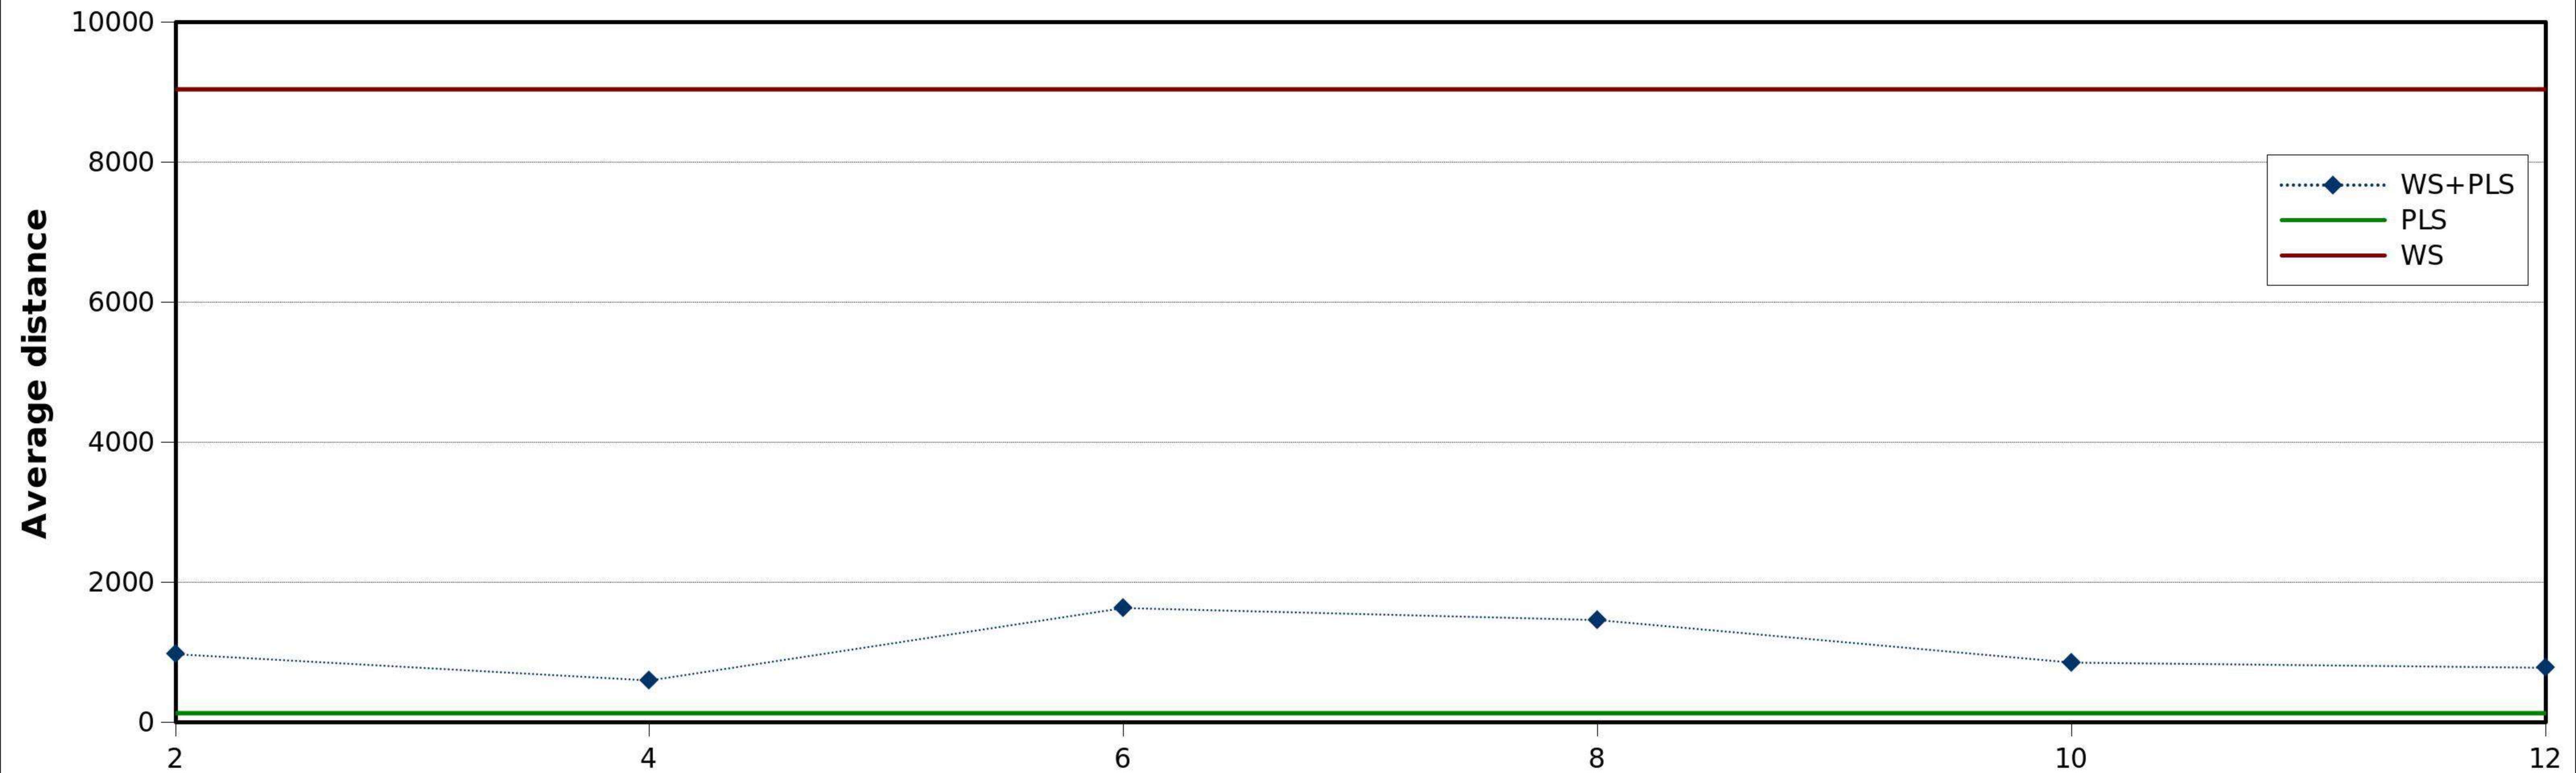

**LOG Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T4**

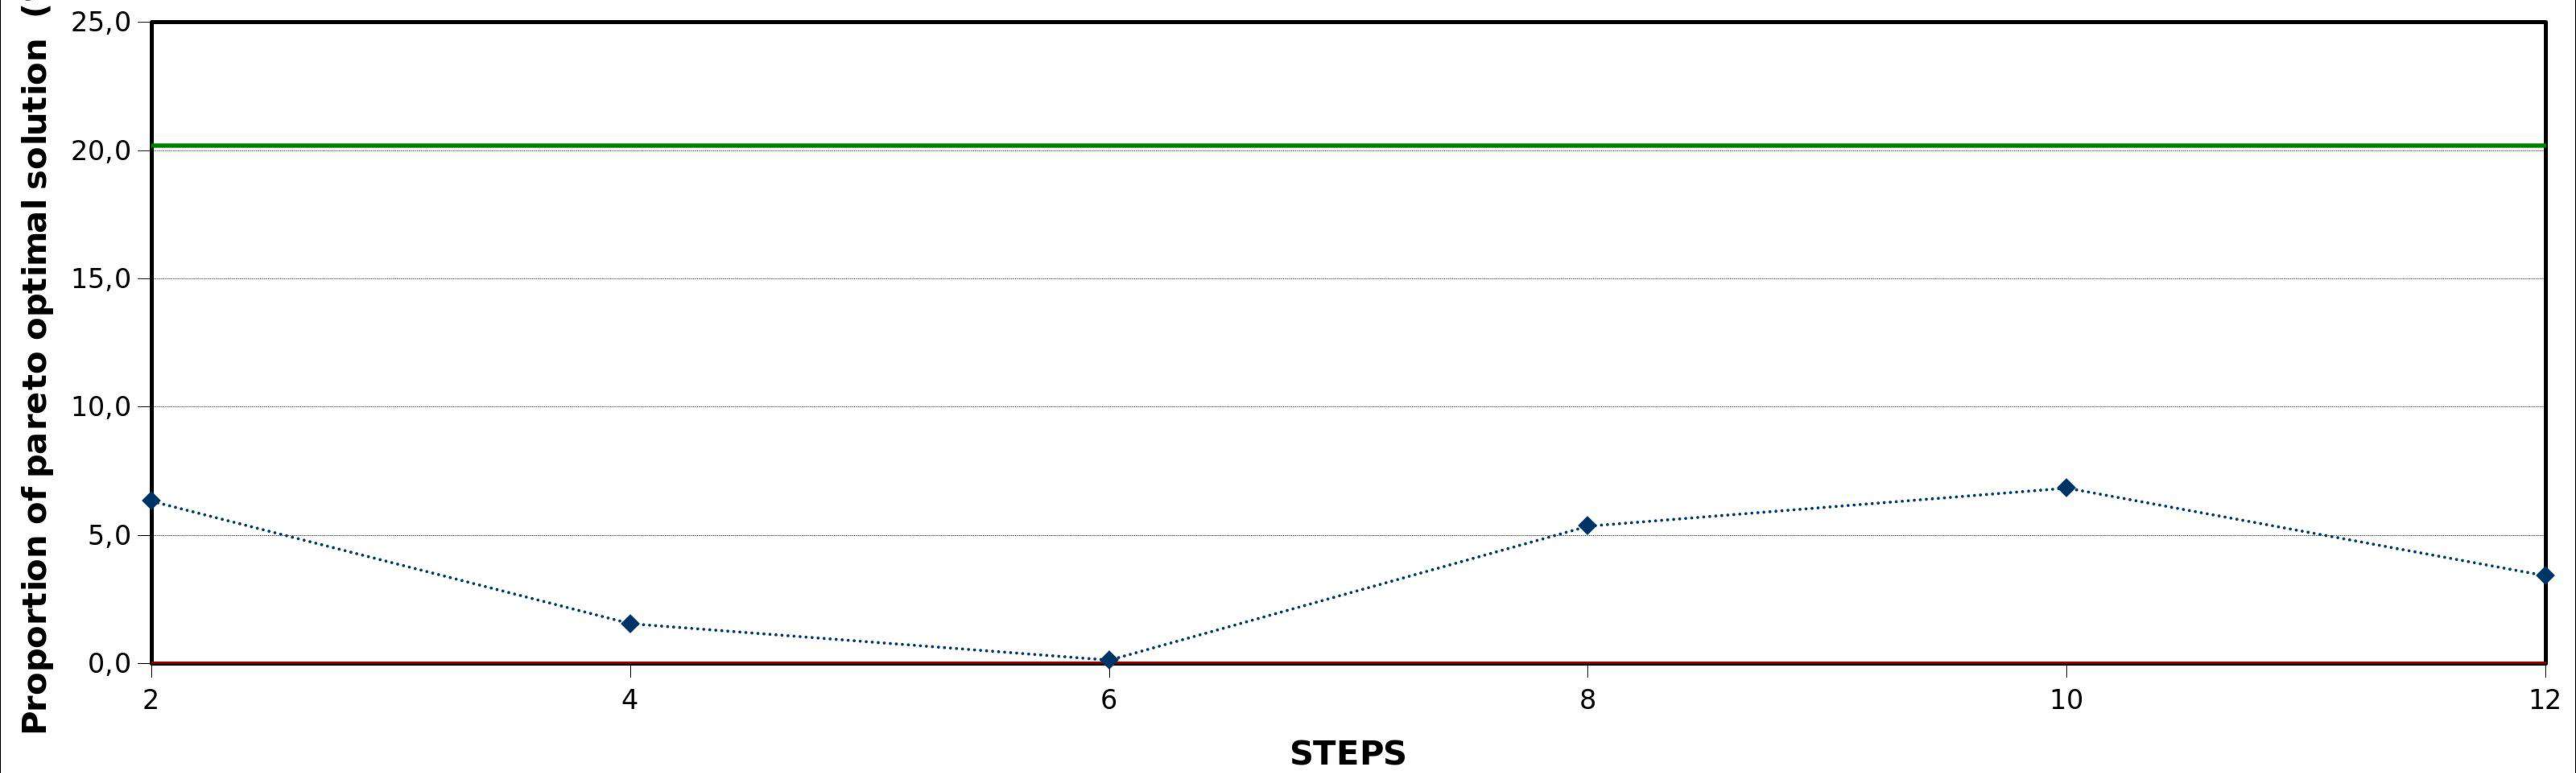

**Average distance Indicator for 100 items (random instance A) - T6**

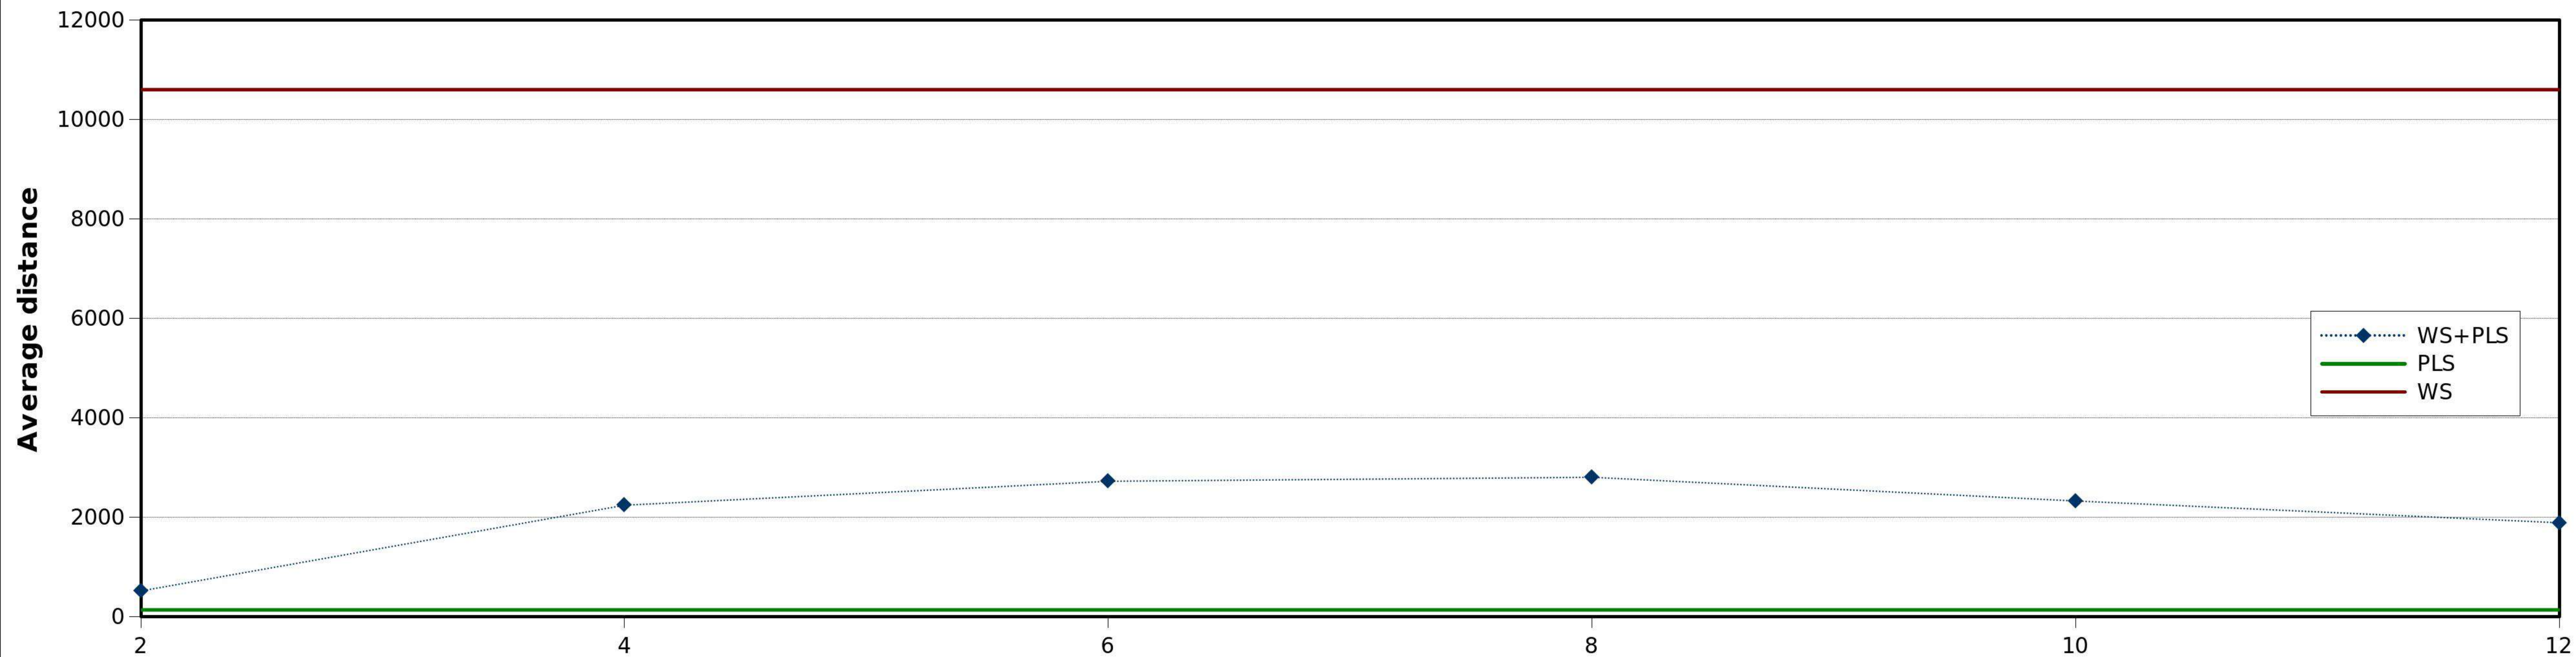

**Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T6**

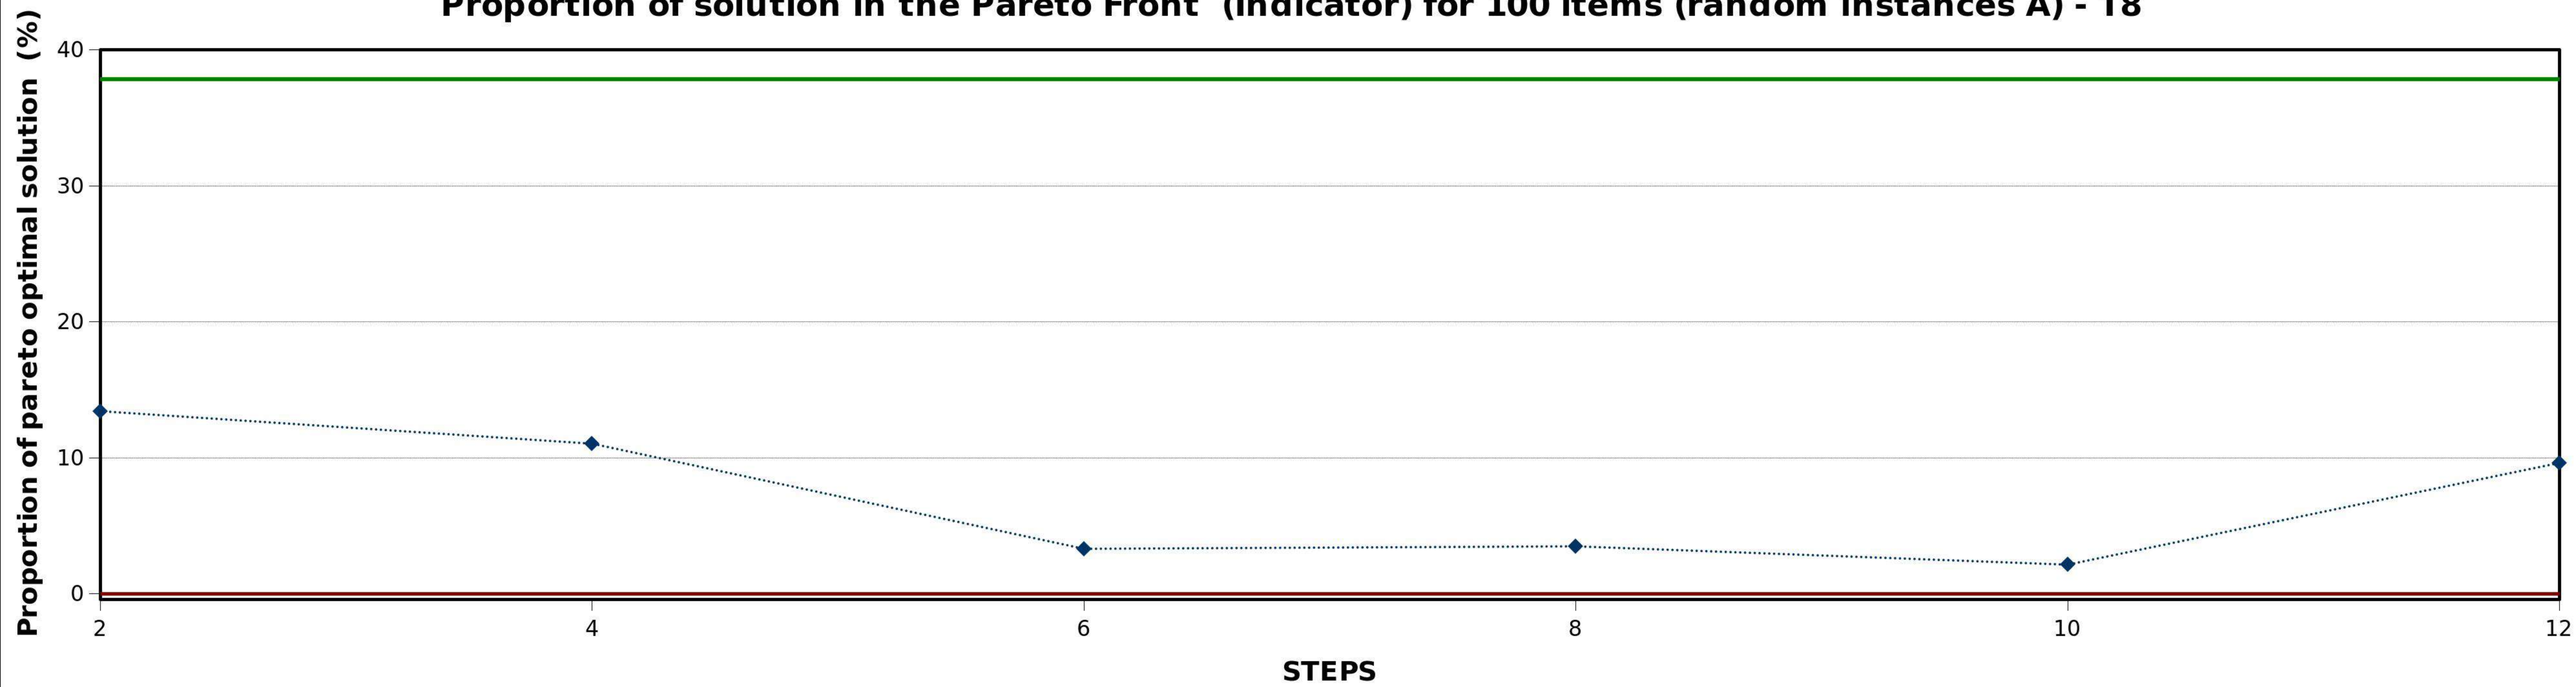

**Average distance Indicator for 100 items (random instance A) - T8**

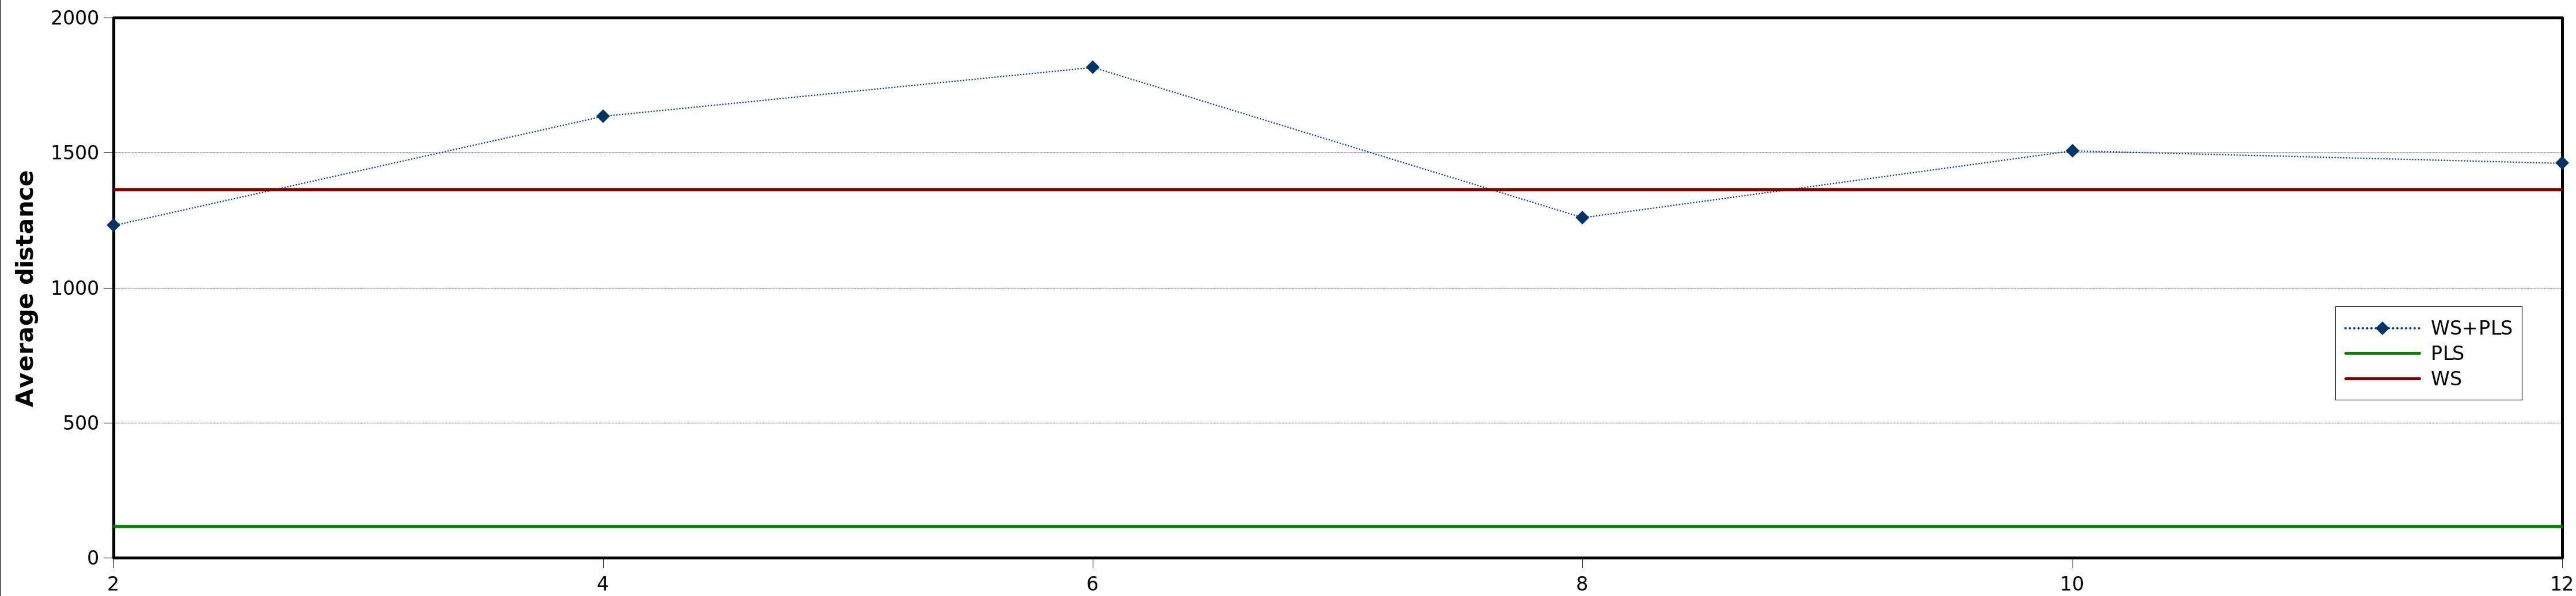

**Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T8**

**Average distance Indicator for 100items (random instance A) - T9**

**Proportion of solution in the Pareto Front (Indicator) for 100 items (random instances A) - T9**
