

Average distance to optimum (%) for 100 items (random Instances A - T0) - PLS+WS

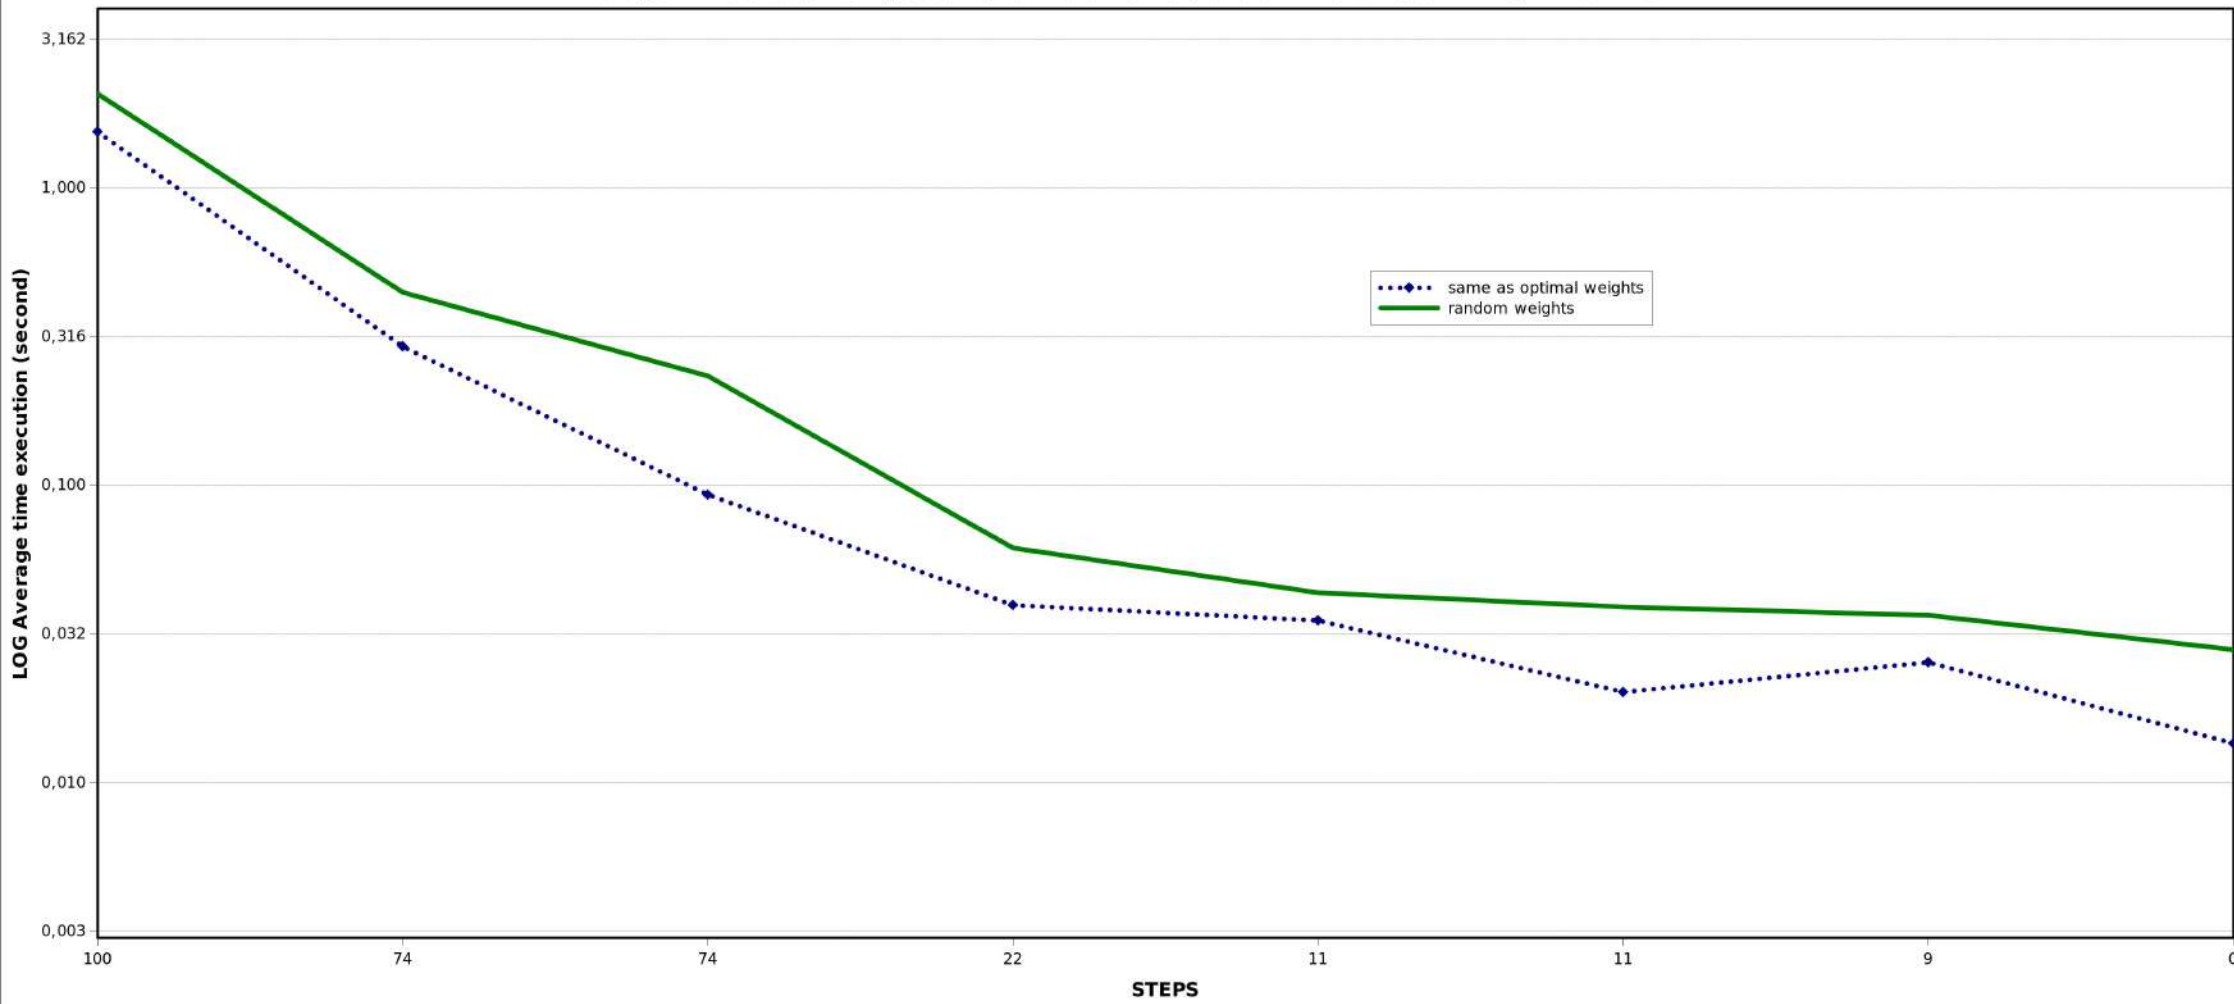

Average time execution (second) for 100 items (random Instances A - T0) - PLS+WS

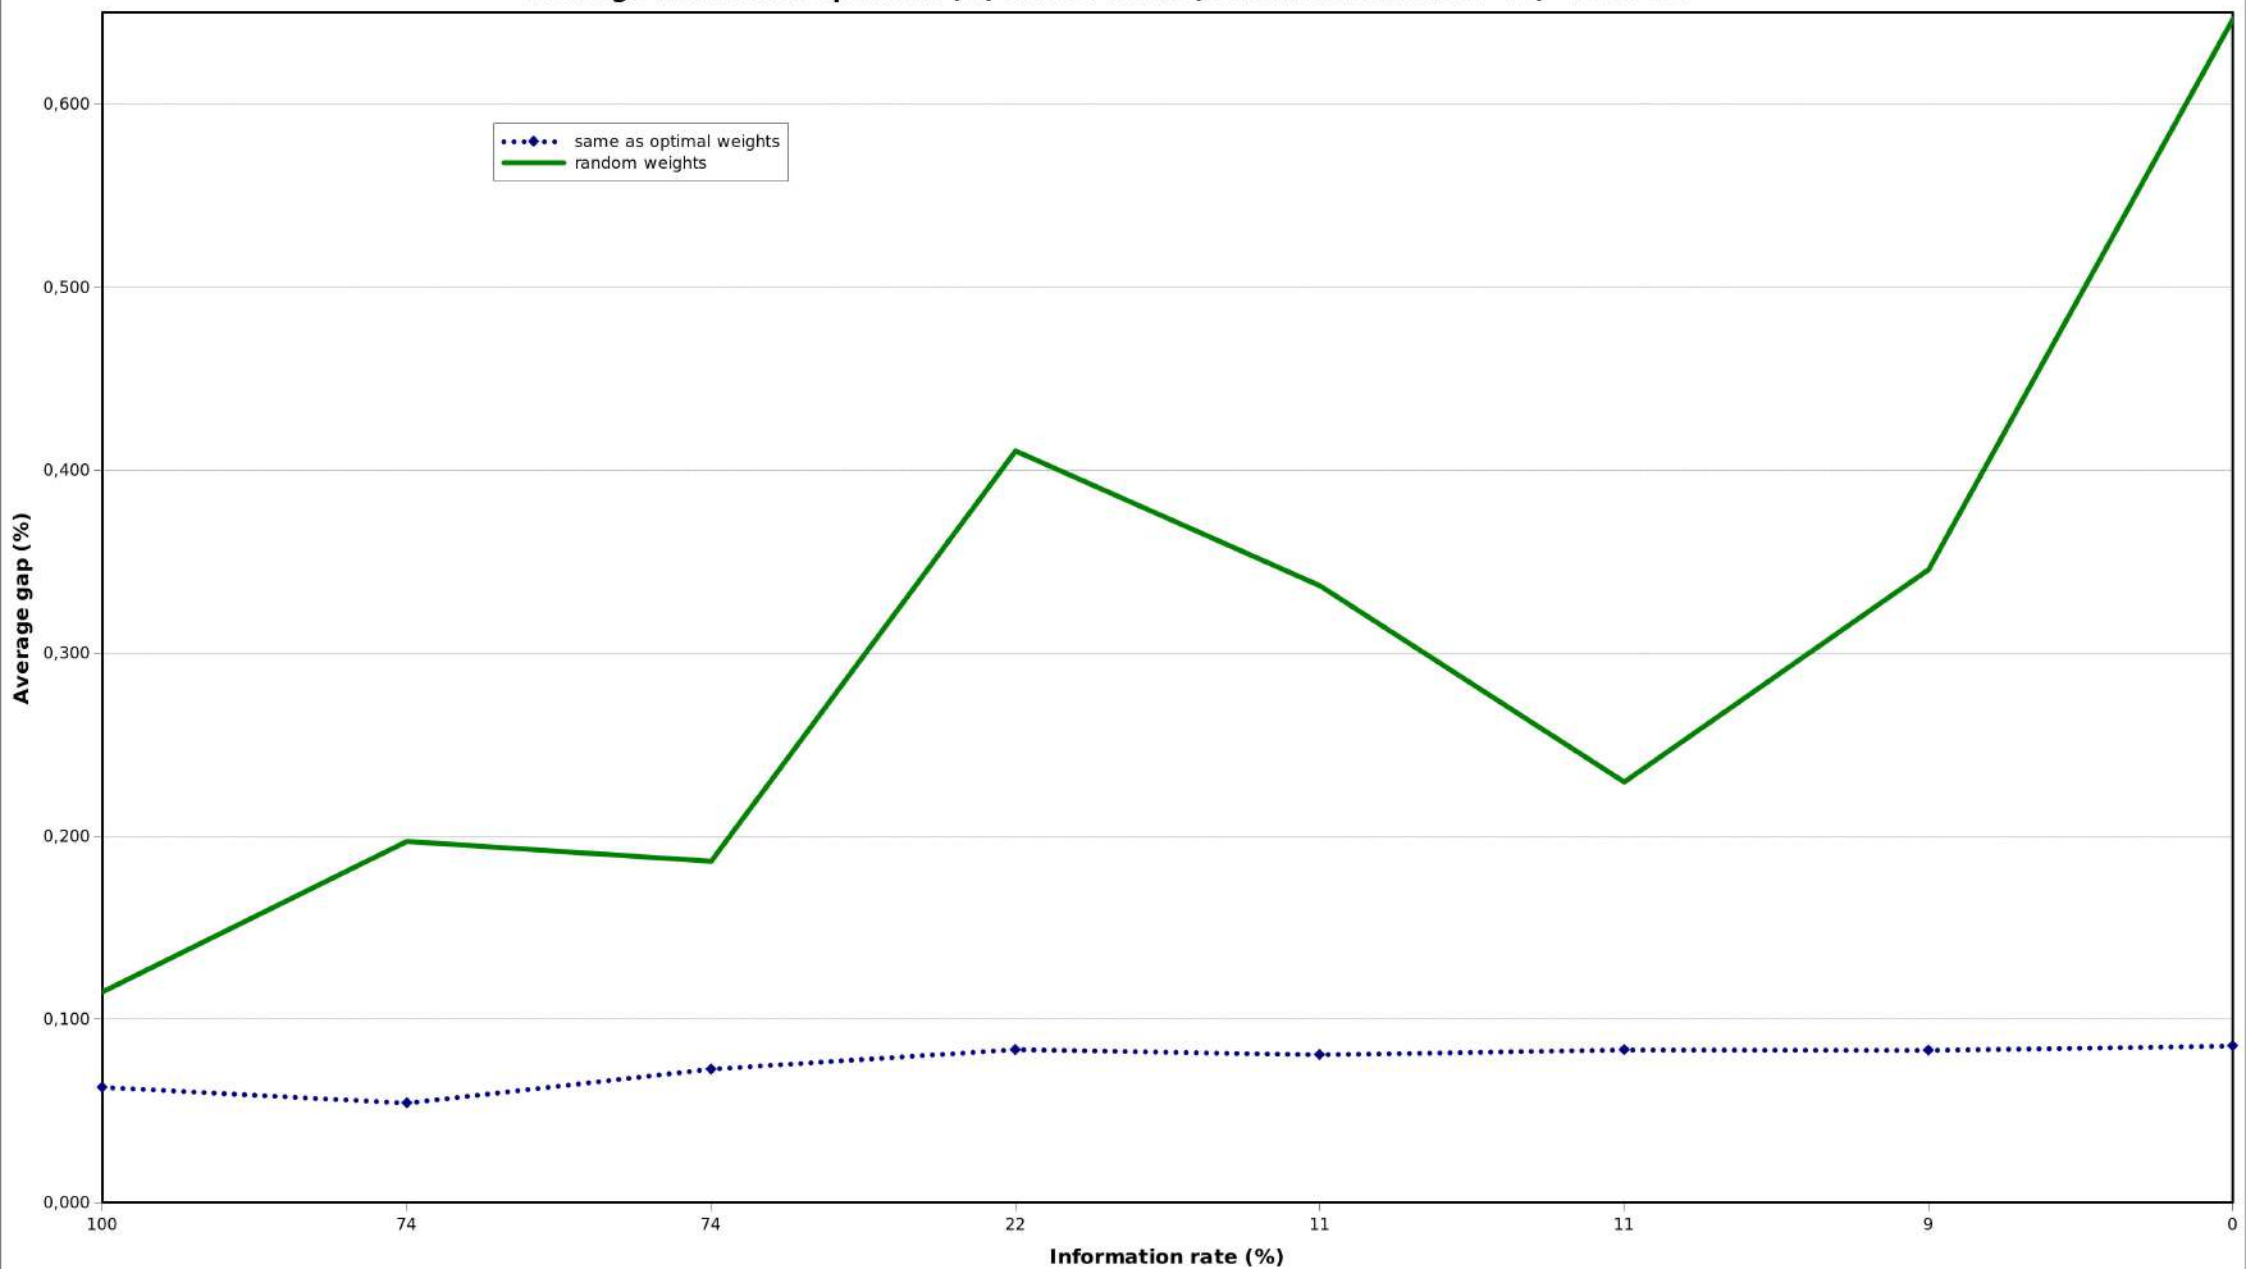

Average distance to optimum (%) for 100 items (random Instances A - T1) - PLS+WS

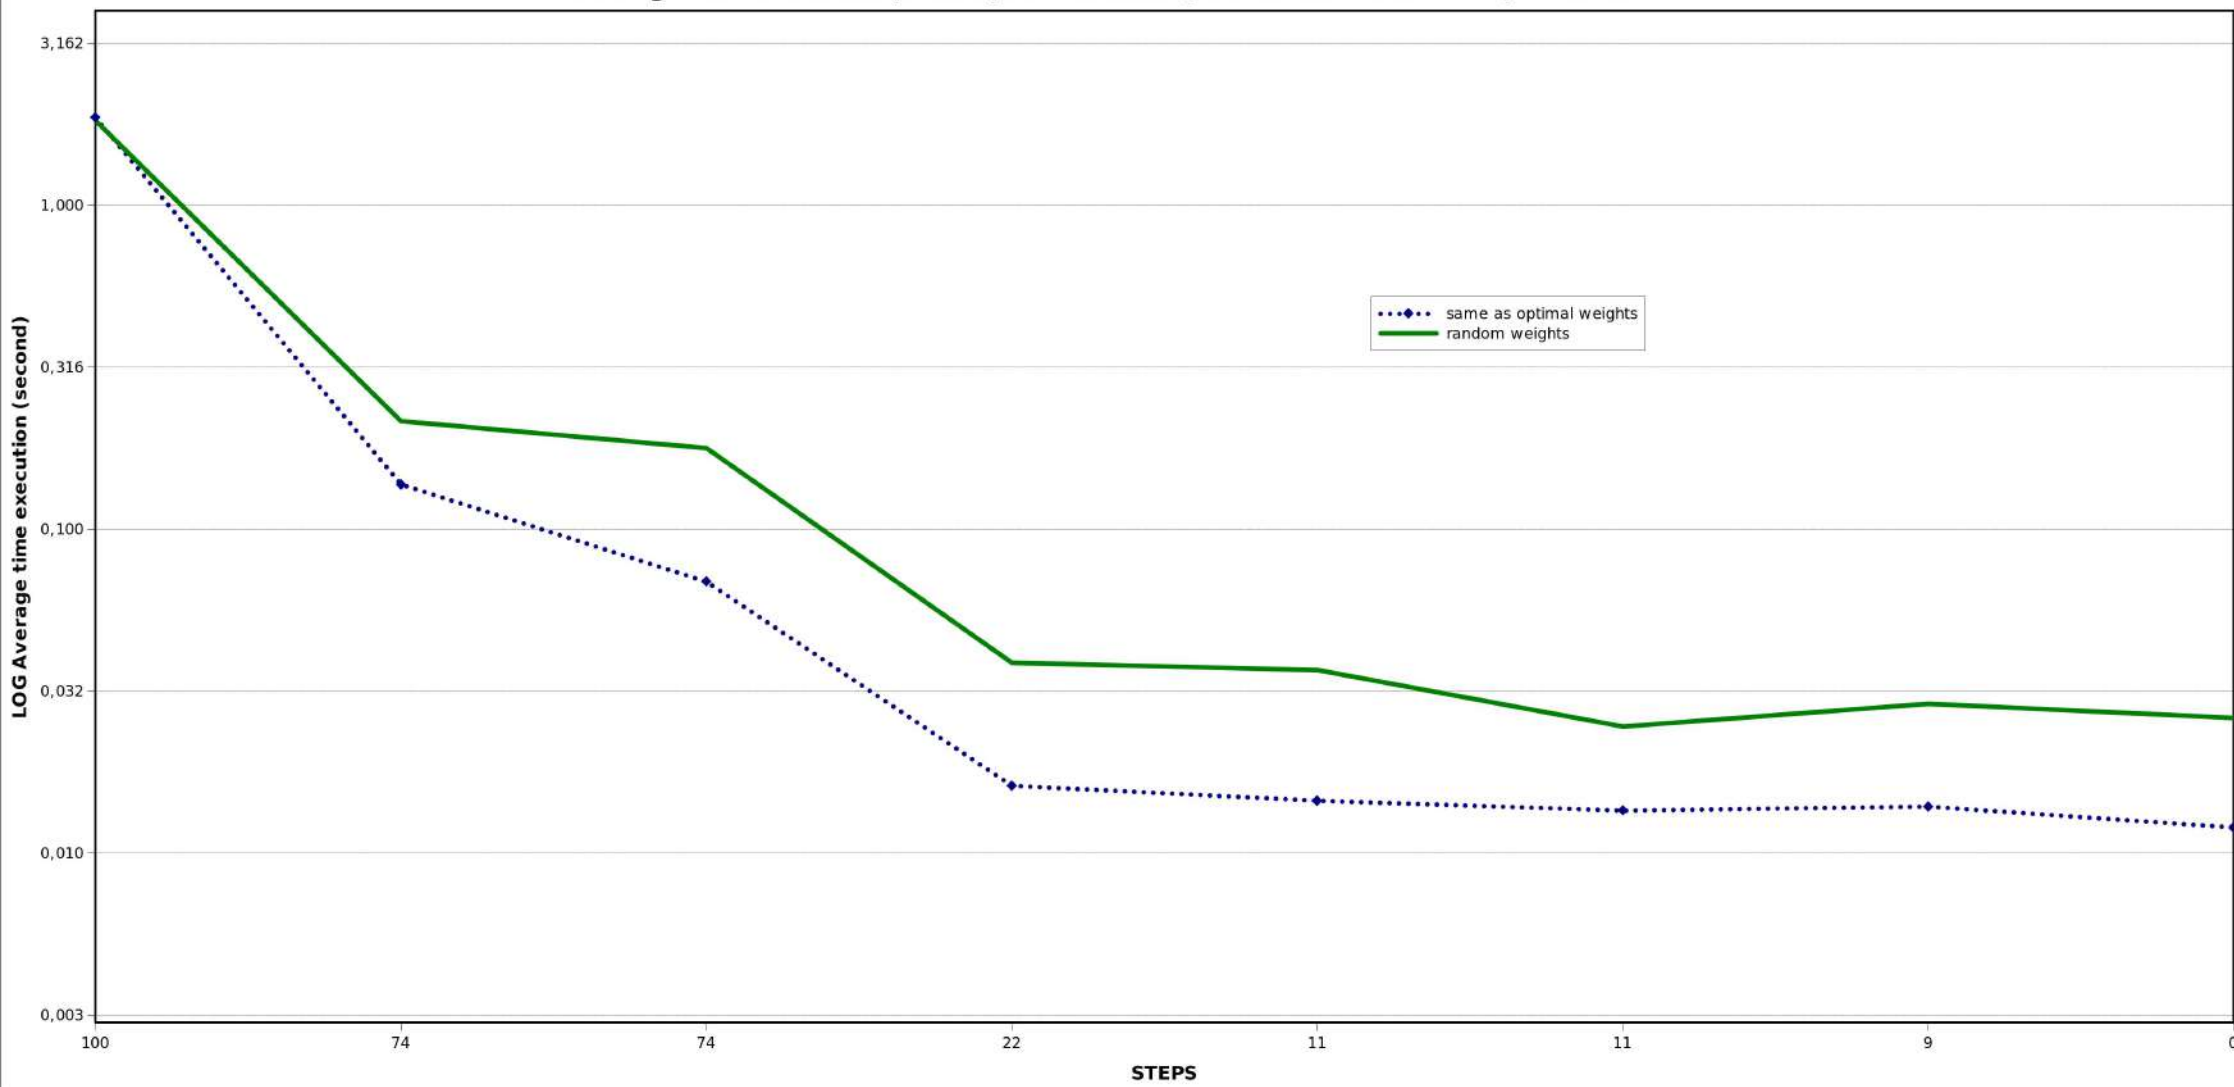

Average time execution (second) for 100 items (random Instances A - T1) - PLS+WS

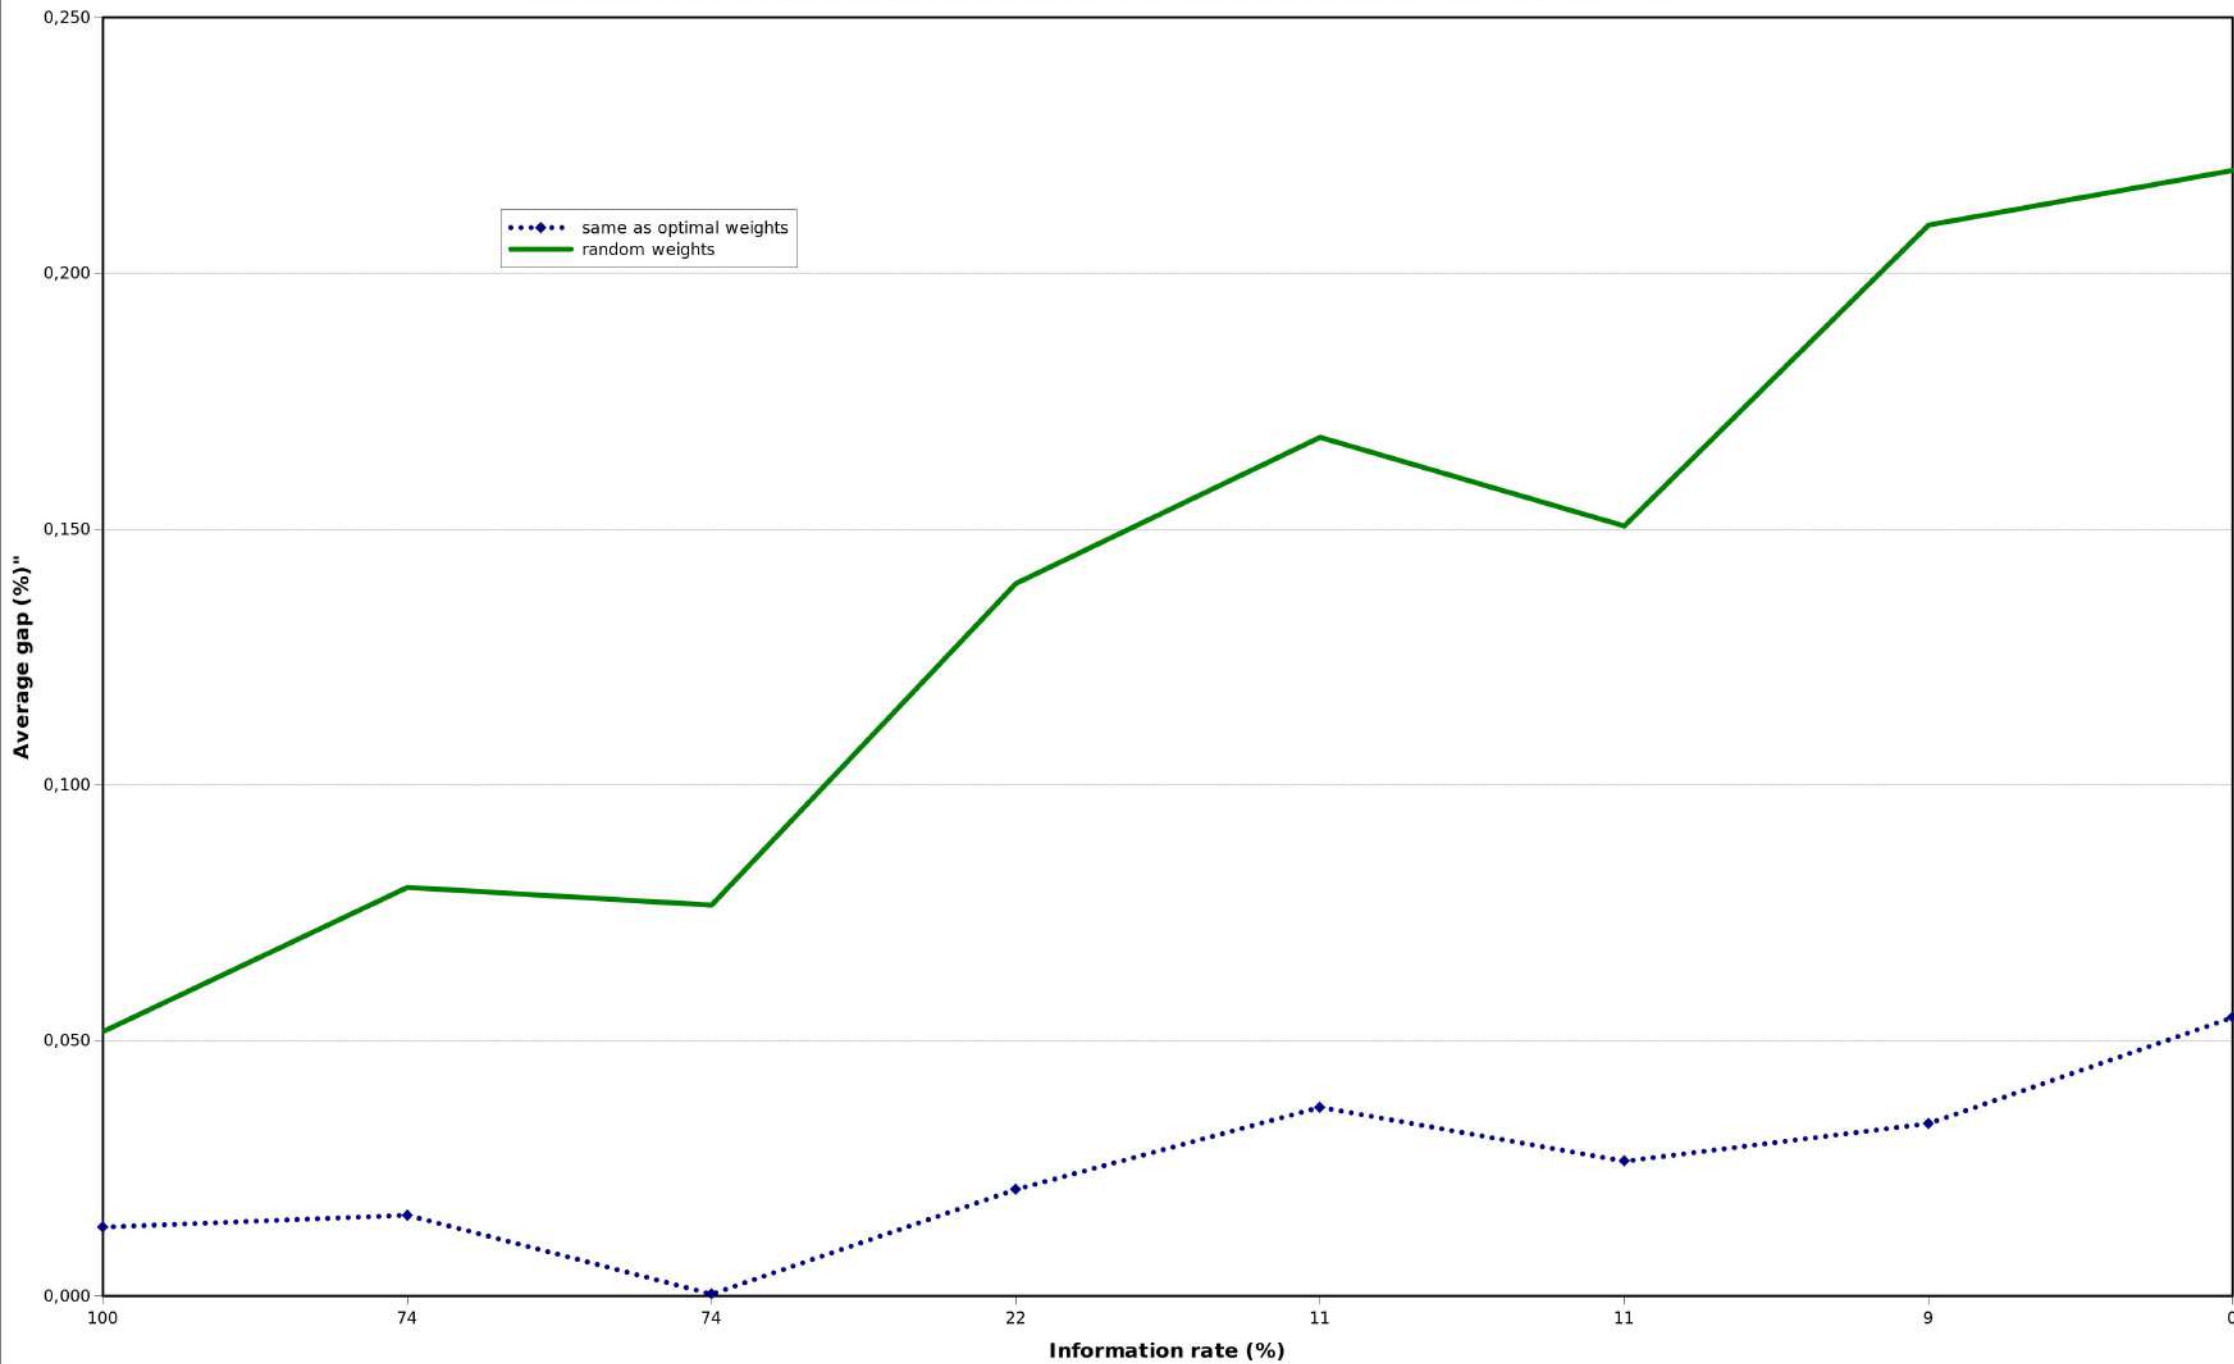

Average distance to optimum (%) for 100 items (random Instances A - T2) - PLS+WS

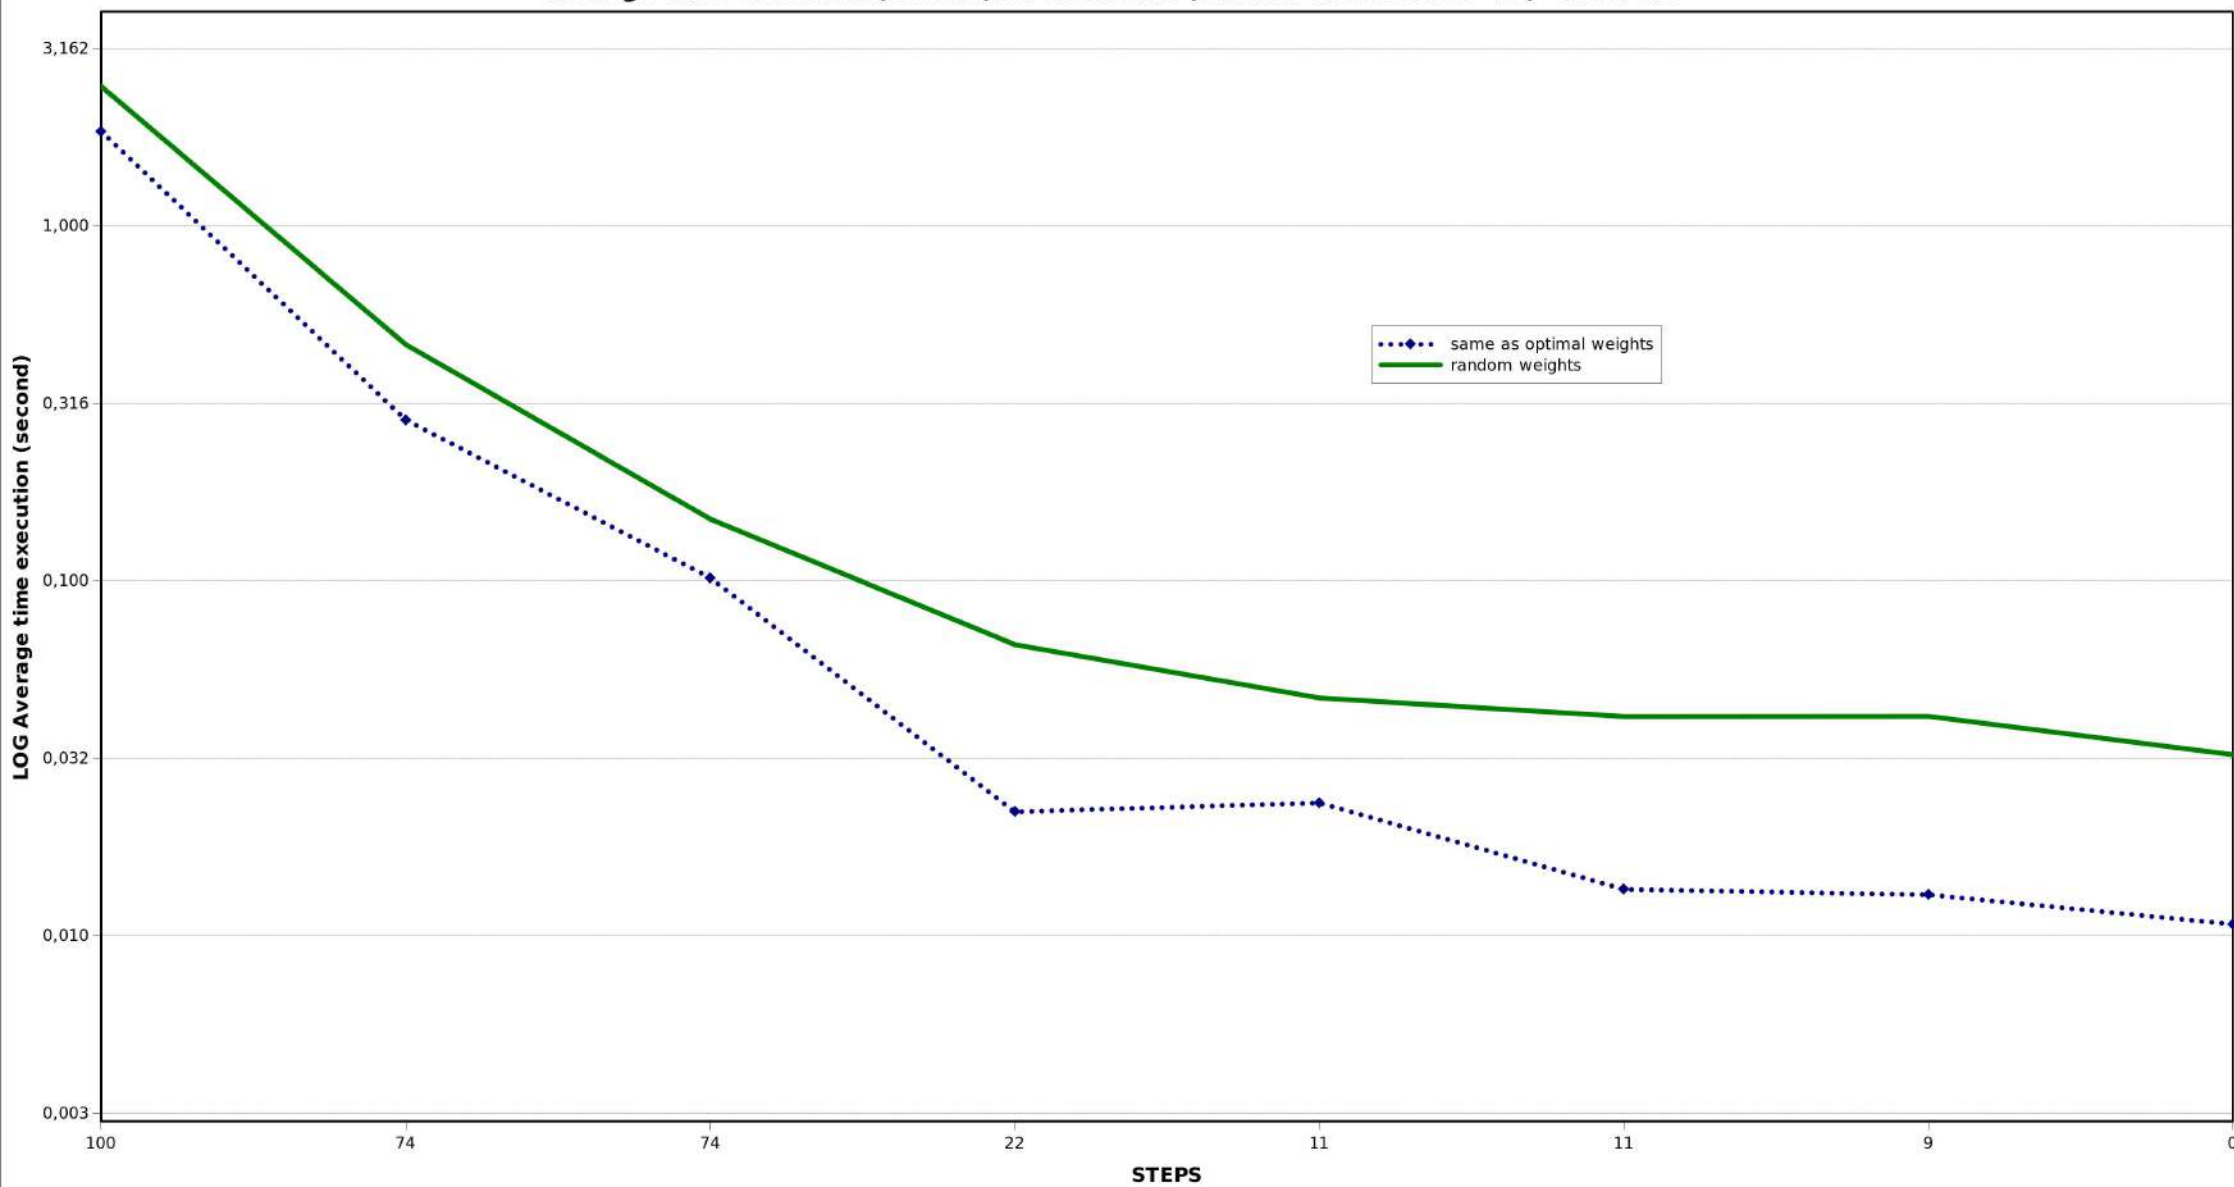

Average time execution (second) for 100 items (random Instances A - T2) - PLS+WS

Average distance to optimum (%) for 100 items (random Instances A - T3) - PLS+WS

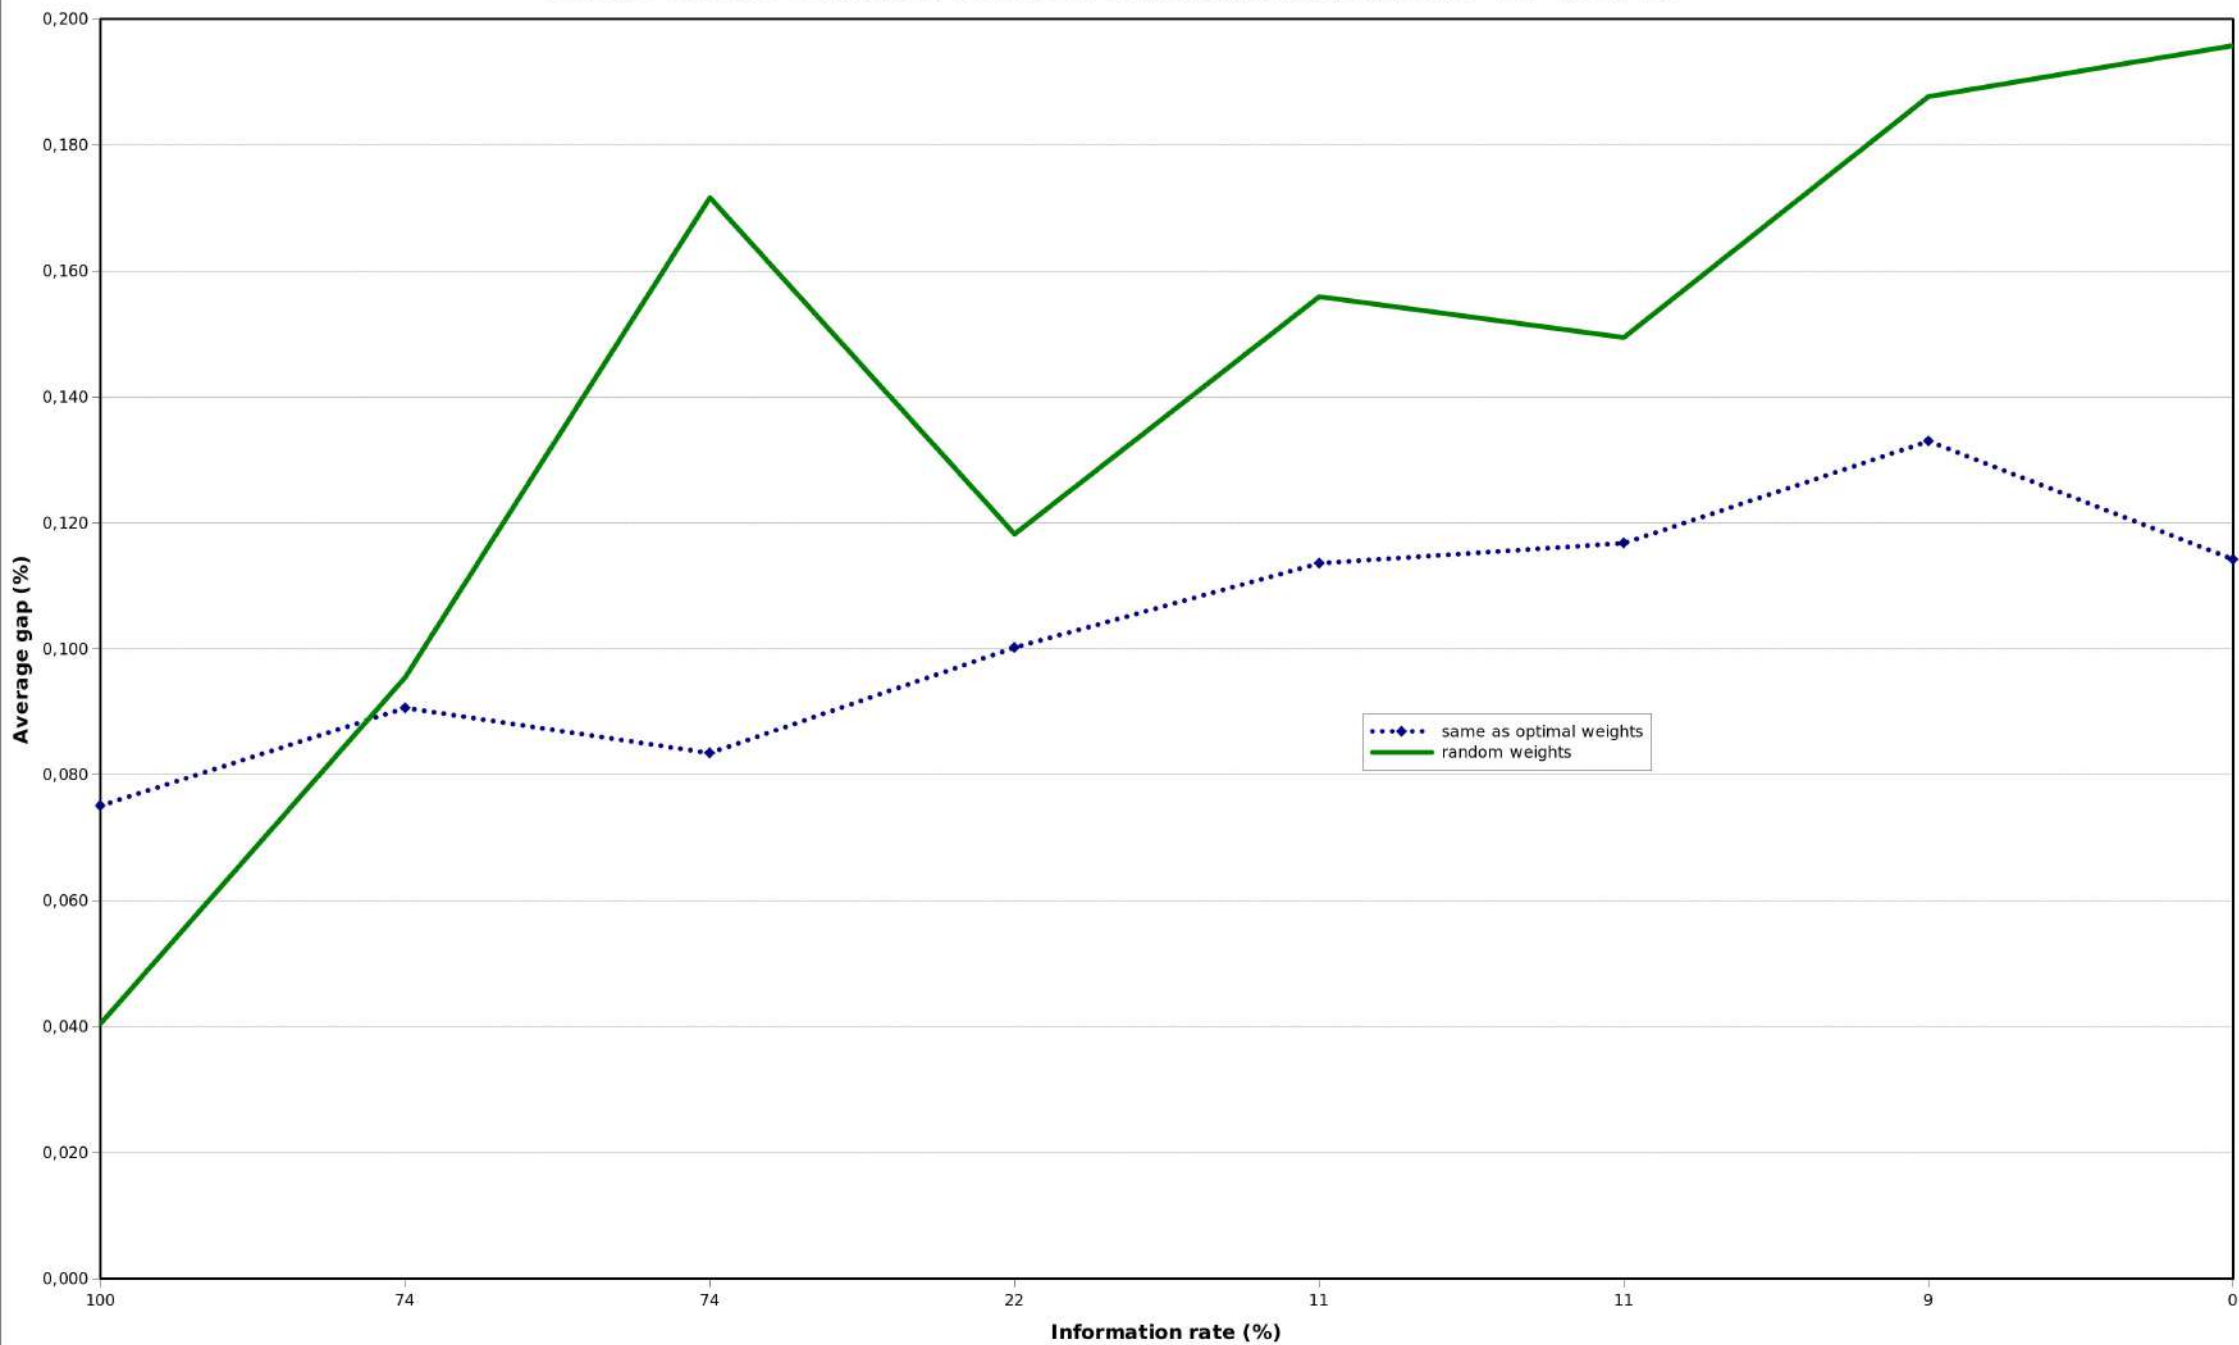

Average time execution (second) for 100 items (random Instances A - T3) - PLS+WS

Average distance to optimum (%) for 100 items (random Instances A - T5) - PLS+WS

Average time execution (second) for 100 items (random Instances A - T5) - PLS+WS
